

Regarding the, Salvia Baptist Church
permit File # Z1200032 Cup 2
8913 N. Nettleton Lane
Spokane WA. 99208

My husband & I are writing this letter
in regards to the above application.

We are very concerned for a number of
reasons but the most concerning is
the effect that more traffic will
impact our road conditions &
the safety of the residents.

We have more traffic now than
Strong Road, Five Mile Road & Cedar Road
can handle.

One of our concerns is the fact that
we have a great deal of pedestrian traffic
& no sidewalks & Strong Road & Cedar are
very narrow. Strong Road & Cedar are
also in very bad condition.

We have to wonder if a traffic study has ever been done & if it has how recent.

At this point we have a very difficult time getting out of our driveway between 9:30 & 10:00 am on Sunday morning to attend our church service. It is also impossible to drive east on Cedar to County Home Blvd between 12:00 & 1:00 on Sunday morning. The cars are lined over half way up Cedar. Many of the drivers are very rude & do not obey the speed limit.

We would also like to address the water drainage. We have had flooding in the past.

Thank you

Gayle & Jack Brothers
2311 W. Strong Road
