

## Environmental Checklist

File No. Z/1500005CEL2

### **Purpose of Checklist:**

The State Environmental Policy Act (SEPA) chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An Environmental Impact Statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

### **Instructions for Applicants:**

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

### **Use of checklist for nonproject proposals:**

Complete this checklist for nonproject proposals, even though questions may be answered "*does not apply*."

IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (Part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

**RECEIVED**

JAN 12 2015

**A. BACKGROUND**

1. Name of proposed project, if applicable: Spokane Public Radio broadcast tower  
\_\_\_\_\_
2. Name of applicant: Spokane Public Radio  
\_\_\_\_\_
3. Address and phone number of applicant or contact person: Cary Boyce, GM.  
2319 N Monroe Street, Spokane, WA 99205; 509-325-5729  
\_\_\_\_\_
4. Date checklist prepared: December 11, 2014  
\_\_\_\_\_
5. Agency requesting checklist: City of Spokane  
\_\_\_\_\_
6. Proposed timing or schedule (including phasing, if applicable): Spring 2015  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
7. a. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. \_\_\_\_\_  
No plans beyond current phase  
\_\_\_\_\_  
b. Do you own or have options on land nearby or adjacent to this proposal? If yes, explain. Spokane Public Radio owns and is currently remodeling the adjacent fire station (1229 N. Monroe Street)  
\_\_\_\_\_  
\_\_\_\_\_
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to his proposal. \_\_\_\_\_  
No environmental information has been or will be prepared directly related to this proposal.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. No.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
10. List any government approvals or permits that will be needed for your proposal, if known. None.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page.

Install 60' Rohn 55G tower to the south side of the existing Fire Station #3, currently being remodeled for Spokane Public Radio offices. The lower 35' of the tower will be attached directly to the building with the upper 25' being a cantilevered tower. The tower will be used to hold antennas and transmitters for three public radio stations.

12. Location of the proposal. Give sufficient information to a person to understand the precise location of your proposed project, including a street address, if any, and section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit application related to this checklist. The tower will be located at 1229 N. Monroe and attached to the south side of the old Fire Station #3 structure located at 1229 N. Monroe. The parcel # is 35182.1302, and the legal description is: "PT OF 2 ADDS L1-2 B33 STRATTONS & PT L1B16 BINGAMANS ADD: S 8 IN OF L1 & ALL L2 B33 STRATTONS ADD & STP W OF & ADJ L1 & 2 BTW BLK 33 STRATTONS & BLK 16 BINGAMANS; EXC BEG N WCOR L1; TH W 0.37 FT; TH SLY TO A PT ON WL L1 21 FT S OF NW COR; TH N TO POB & E 8FT OF N75FT OF L1 B16 BINGAMANS ADD."

13. Does the proposed action lie within the Aquifer Sensitive Area (ASA)? The General Sewer Service Area? The Priority Sewer Service Area? The City of Spokane? (See: Spokane County's ASA Overlay Zone Atlas for boundaries.)

The proposed project lies within the City of Spokane and is served by city sewer, though any specific sewer designations are unknown.

14. The following questions supplement Part A.

a. Critical Aquifer Recharge Area (CARA) / Aquifer Sensitive Area (ASA)

- (1) Describe any systems, other than those designed for the disposal of sanitary waste, installed for the purpose of discharging fluids below the ground surface (includes systems such as those for the disposal of stormwater or drainage from floor drains). Describe the type of system, the amount of material to be disposed of through the system and the types of material likely to be disposed of (including materials which may enter the system inadvertently through spills or as a result of firefighting activities).

None.

- (2) Will any chemicals (especially organic solvents or petroleum fuels) be stored in aboveground or underground storage tanks? If so, what types and quantities of material will be stored?

No.

(3) What protective measures will be taken to insure that leaks or spills of any chemicals stored or used on site will not be allowed to percolate to groundwater. This includes measures to keep chemicals out of disposal systems.

N/A.  
\_\_\_\_\_  
\_\_\_\_\_

(4) Will any chemicals be stored, handled or used on the site in a location where a spill or leak will drain to surface or groundwater or to a stormwater disposal system discharging to surface or groundwater?

N/A.  
\_\_\_\_\_  
\_\_\_\_\_

b. Stormwater

(1) What are the depths on the site to groundwater and to bedrock (if known)?

Unknown.  
\_\_\_\_\_  
\_\_\_\_\_

(2) Will stormwater be discharged into the ground? If so, describe any potential impacts?

Existing stormwater conditions will not be changed by this project.  
\_\_\_\_\_  
\_\_\_\_\_

**TO BE COMPLETED BY APPLICANT**

**B. ENVIRONMENTAL ELEMENTS**

Evaluation for  
Agency Use  
Only

**1. Earth**

a. General description of the site (circle one): *flat, rolling, hilly, steep slopes, mountains, other.* Generally flat.

\_\_\_\_\_  
\_\_\_\_\_

b. What is the steepest slope on the site (approximate percent slope)? 0% slope

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland. The location is adjacent to and consistent with an old gravel parking lot.
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. No.
- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill: No filling, excavation or grading is proposed. Project scope includes pouring a small (3'x3') concrete footing.
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. Erosion is very unlikely to occur due to the extremely limited scope of the project and the flat nature of the site.
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? Impervious surfaces prior to project: 49%. Impervious surfaces after project: 49%.
- h. Proposed measures to reduce or control erosion or other impacts to the earth, if any: None anticipated.

**2. Air**

- a. What type of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial, wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known. No emissions are associated with this project.
- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. None.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

None.

---

---

---

**3. Water**

- a. SURFACE:

- (1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

None.

---

---

---

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. No.

---

---

---

---

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from the surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

N/A.

---

---

---

- (4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No.

---

---

---

- (5) Does the proposal lie within a 100-year floodplain? \_\_\_\_ If so, note location on the site plan.

No.

---

---

---

- (6) Does the proposal involve any discharge of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No.

---

---

---

---

b. GROUND:

- (1) Will groundwater be withdrawn, or will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

No.

---

---

---

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sanitary waste treatment facility. Describe the general size of the system, the number of houses to be served (if applicable) or the number of persons the system(s) are expected to serve.

N/A.

---

---

---

c. WATER RUNOFF (INCLUDING STORMWATER):

- (1) Describe the source of runoff (including stormwater) and method of collection and disposal if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

The limited amount of impervious surface created by this proposal will run off tower footing and infiltrate into the existing gravel.

---

---

- (2) Could waste materials enter ground or surface waters? If so, generally describe.

No.

---

---

---

---

- d. PROPOSED MEASURES to reduce or control surface, ground, and runoff water impacts, if any.

None.

---

---

---

---

**4. Plants**

a. Check or circle type of vegetation found on the site:

\_\_\_\_\_ Deciduous tree: *alder, maple, aspen, other.*

\_\_\_\_\_ Evergreen tree: *fir, cedar, pine, other.*

\_\_\_\_\_ Shrubs

\_\_\_\_\_ Grass

\_\_\_\_\_ Pasture

\_\_\_\_\_ Crop or grain

\_\_\_\_\_ Wet soil plants, *cattail, buttercup, bullrush, skunk cabbage,*  
*other.*

\_\_\_\_\_ Water plants: *water lilly, eelgrass, milfoil, other.*

\_\_\_\_\_ Other types of vegetation.

b. What kind and amount of vegetation will be removed or altered? None.

c. List threatened or endangered species known to be on or near the site. None.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: None.

**5. Animals**

a. Circle any birds and animals which have been observed on or near the site are known to be on or near the site:

birds: *hawk, heron, eagle, songbirds, other.* None.

mammals: *deer, bear, elk, beaver, other.* None.

fish: *bass, salmon, trout, herring, shellfish, other.* None.

other: \_\_\_\_\_

- b. List any threatened or endangered species known to be on or near the site.

None.

- c. Is the site part of a migration route? If so, explain. \_\_\_\_\_

Not known.

- d. Proposed measures to preserve or enhance wildlife, if any:

N/A.

## 6. Energy and natural resources

- a. What kinds of energy (electric, natural gas, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. The project's equipment will be fed from equipment located in the adjacent Spokane Public Radio building, which is currently being remodeled under permit B1405615. The SPR building is fed by Avista electricity.
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. \_\_\_\_\_  
No. The radio tower is narrow in diameter and made of an open framework. There are no adjacent properties to the north or east that would be subject to shadows cast by the tower.
- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

None.

## 7. Environmental health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe. No.

(1) Describe special emergency services that might be required.

None.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(2) Proposed measures to reduce or control environmental health hazards, if any:

None.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

b. NOISE:

(1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

General arterial street traffic noise is present in the area but has no impact on the proposed project.  
\_\_\_\_\_  
\_\_\_\_\_

(2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

None.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(3) Proposed measure to reduce or control noise impacts, if any:

N/A.  
\_\_\_\_\_  
\_\_\_\_\_

**8. Land and shoreline use**

a. What is the current use of the site and adjacent properties?

Current site is adjacent to and consistent with an unimproved gravel parking lot. Adjacent uses are residential, retail and office. The proposed use is consistent with adjacent properties.  
\_\_\_\_\_  
\_\_\_\_\_

b. Has the site been used for agriculture? If so, describe. No.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

- c. Describe any structures on the site. On the project site is an older wood-framed, two-story building currently housing the "Kirby" vacuum service center. Adjacent to the site is Fire Station #3, built in two phases in the early 20<sup>th</sup> century. The building is a brick & wood framed structure that is being renovated by SPR.
- d. Will any structures be demolished? If so, which? No.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- e. What is the current zoning classification of the site? CC2-DC  
\_\_\_\_\_
- f. What is the current comprehensive plan designation of the site? General Commercial  
\_\_\_\_\_
- g. If applicable, what is the current shoreline master program designation of the site?  
N/A.  
\_\_\_\_\_
- h. Has any part of the site been classified as a critical area? If so, specify. No.  
\_\_\_\_\_  
\_\_\_\_\_
- i. Approximately how many people would reside or work in the completed project?  
Zero.
- j. Approximately how many people would the completed project displace? Zero.
- k. Proposed measures to avoid or reduce displacement impacts, if any: N/A.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: \_\_\_\_\_  
Proposal is compatible with existing and projected land uses.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**9. Housing**

- a. Approximately how many units would be provided, if any?  
Indicate whether high, middle or low-income housing. None.  
\_\_\_\_\_  
\_\_\_\_\_
- b. Approximately how many units, if any, would be eliminated?  
Indicate whether high-, middle- or low-income housing. None.  
\_\_\_\_\_  
\_\_\_\_\_
- c. Proposed measures to reduce or control housing impacts, if  
any: N/A.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**10. Aesthetics**

- a. What is the tallest height of any proposed structure(s), not  
including antennas; what is the principal exterior building  
material(s) proposed? N/A.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- b. What views in the immediate vicinity would be altered or  
obstructed? Due to the limited bulk and height of the tower, any impact  
to views would be quite limited and localized.  
\_\_\_\_\_  
\_\_\_\_\_
- c. Proposed measures to reduce or control aesthetic impacts,  
if any: The proposed location is towards the center of the applicant's  
two properties and is isolated from most views.  
\_\_\_\_\_  
\_\_\_\_\_

**11. Light and Glare**

- a. What type of light or glare will the proposal produce? What  
time of day would it mainly occur? No lighting will be provided.  
\_\_\_\_\_  
\_\_\_\_\_

b. Could light or glare from the finished project be a safety hazard or interfere with views? N/A.

\_\_\_\_\_

c. What existing off-site sources of light or glare may affect your proposal? None.

\_\_\_\_\_

d. Proposed measures to reduce or control light and glare impacts, if any: N/A.

\_\_\_\_\_

## 12. Recreation

a. What designated and informal recreational opportunities are in the immediate vicinity? None.

\_\_\_\_\_

b. Would the proposed project displace any existing recreational uses? If so, describe. No.

\_\_\_\_\_

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: N/A.

\_\_\_\_\_

## 13. Historic and cultural preservation

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe. Adjacent structure to which this project is affixed is approximately 100 years old and is on the national register. The building to the southeast is of similar age but of poor condition and is not registered as historic.

b. Generally describe any landmarks or evidence of historic archaeological, scientific or cultural importance known to be on or next to the site.

None known.

\_\_\_\_\_

- c. Proposed measures to reduce or control impacts, if any: None.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

#### 14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any. \_\_\_\_\_  
Overall site is near the corner of North Monroe Street and West Sharp Avenue, which provides access to the site.
- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop? Yes, one block.
- c. How many parking spaces would the completed project have? How many would the project eliminate? None.  
\_\_\_\_\_
- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets not including driveways? If so, generally describe (indicate whether public or private). No.  
\_\_\_\_\_  
\_\_\_\_\_
- e. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe. \_\_\_\_\_  
No water, rail, or air transportation currently occurs in the vicinity of the project, and none is required or impacted by this proposal.
- f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak would occur. The radio tower is being developed to support an existing building, and is a relocated function from the existing broadcast facilities 3/4 of a mile to the north on Monroe Street. For these reasons, no increase in vehicle trips is assumed for the proposal.  
(Note: to assist in review and if known indicate vehicle trips during PM peak, AM Peak and Weekday (24 hours).)
- g. Proposed measures to reduce or control transportation impacts, if any: None.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**15. Public services**

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. \_\_\_\_\_  
The project will support an existing building so any need for public services is assumed to be constant.
- b. Proposed measures to reduce or control direct impacts on public services, if any: None.
- \_\_\_\_\_
- \_\_\_\_\_

**16. Utilities**

- a. Circle utilities currently available at the site: electricity  
natural gas, water, refuse service, telephone, sanitary sewer,  
septic system, other: \_\_\_\_\_
- b. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed. This project has no new utility services.
- \_\_\_\_\_
- \_\_\_\_\_

**C. SIGNATURE**

I, the undersigned, swear under penalty of perjury that the above responses are made truthfully and to the best of my knowledge. I also understand that, should there be any willful misrepresentation or willful lack of full disclosure on my part, the agency must withdraw any determination of Nonsignificance that it might issue in reliance upon this checklist.

Date: 12/11/14 Signature:

Proponent: Austin Dickey, Copeland Arch. & Const. Address: 121 W. Pacific Ave, Suite 300

Phone: 509-838-9085 Spokane, WA 99201

Person completing form (if different from proponent): \_\_\_\_\_ Address: \_\_\_\_\_

Phone: \_\_\_\_\_

**FOR STAFF USE ONLY**

Staff member(s) reviewing checklist: \_\_\_\_\_

Based on this staff review of the environmental checklist and other pertinent information, the staff concludes that:

- A. there are no probable significant adverse impacts and recommends a Determination of Nonsignificance.
- B. probable significant adverse environmental impacts do exist for the current proposal and recommends a Mitigated Determination of Nonsignificance with conditions.
- C. there are probable significant adverse environmental impacts and recommends a Determination of Significance.

**D. SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS**  
***(Do not use this sheet for project actions)***

Because these questions are very general, it may be helpful to read them in conjunction with the list of elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage or release of toxic or hazardous substances; or production of noise?

---

---

---

Proposed measures to avoid or reduce such increases are:

---

---

---

2. How would the proposal be likely to affect plants, animals, fish or marine life?

---

---

---

Proposed measures to protect or conserve plants, animals, fish or marine life are:

---

---

---

3. How would the proposal be likely to deplete energy or natural resources?

---

---

---

Proposed measures to protect or conserve energy and natural resources are:

---

---

---

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection, such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, flood plains or prime farmlands?

---

---

---

Proposed measures to protect such resources or to avoid or reduce impacts are:

---

---

---

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

---

---

---

Proposed measures to avoid or reduce shoreline and land use impacts are:

---

---

---

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

---

---

Proposed measures to reduce or respond to such demand(s) are:

---

---

---

7. Identify, if possible, whether the proposal may conflict with local, state or federal laws or requirements for the protection of the environment.

---

---

C. SIGNATURE

I, the undersigned, swear under penalty of perjury that the above responses are made truthfully and to the best of my knowledge. I also understand that, should there be any willful misrepresentation or willful lack of full disclosure on my part, the *agency* may withdraw any Determination of Nonsignificance that it might issue in reliance upon this checklist.
