

ORDINANCE NO. _____

An ordinance amending sections 17A.020.010, 17A.020.020, 17A.020.030, 17A.020.130, 17A.020.160 and 17A.020.200 of the Spokane Municipal Code.

WHEREAS, the City of Spokane is updating Chapter 3 of the Design Standards; and

WHEREAS, consistency should be maintained between the Spokane Municipal Code and the Design Standards; and

WHEREAS, to be added later

NOW THEREFORE, the City of Spokane does ordain:

Section 1. That section 17A.020.010 of the Spokane Municipal Code is amended to read as follows:

Section 17A.020.010 “A” Definitions

A. Abandoned Sign Structure.
See SMC 17C.240.015.

B. Aboveground Storage Tank or AST.
Any one or connected combination of tanks that is used to contain an accumulation of liquid critical materials and the aggregate volume of which (including the volume of piping connected thereto) is more than sixty gallons and the entire exterior surface area of the tank is above the ground and is able to be fully visually inspected. Tanks located in vaults or buildings that are to be visually inspected are considered to be aboveground tanks.

C. Accepted.
A project for which the required plans have been found to be technically adequate.

D. Accessory Dwelling Unit (ADU).
An accessory dwelling unit is a separate additional living unit, including separate kitchen, sleeping, and bathroom facilities, attached or detached from the primary residential unit, on a single-family lot. ADUs are known variously as:
1. “Mother-in-law apartments,”
2. “Accessory apartments,” or
3. “Second units.”

E. Accessory Structure.
A structure of secondary importance or function on a site. In general, the primary use of the site is not carried on in an accessory structure.
1. Accessory structures may be attached or detached from the primary structure.
2. Examples of accessory structures include:

- a. Garages,
- b. Decks,
- c. Fences,
- d. Trellises,
- e. Flagpoles,
- f. Stairways,
- g. Heat pumps,
- h. Awnings, and
- i. Other structures.

3. See also [SMC 17A.020.160](#) (“Primary Structure”).

F. Accessory Use.

A use or activity which is a subordinate part of a primary use and which is clearly incidental to a primary use on a site.

G. Activity.

See Regulated Activity.

H. Administrative Decision.

A permit decision by an officer authorized by the local government. The decision may be for approval, denial, or approval with conditions and is subject to the applicable development standards of the land use codes or development codes.

I. Adult Bookstore or Adult Video Store.

1. A commercial establishment which, as one of its principal business activities, offers for sale or rental for any form of consideration any one or more of the following: books, magazines, periodicals or other printed matter, or photographs, films, motion pictures, video cassettes, compact discs, digital video discs, slides, or other visual representations which are characterized by their emphasis upon the display of “specified anatomical areas,” as defined in [SMC 17A.020.190](#), or “specified sexual activities,” as defined in [SMC 17A.020.190](#). A “principal business activity” exists where the commercial establishment meets any one or more of the following criteria:

- a. At least thirty percent of the establishment’s displayed merchandise consists of said items; or
- b. At least thirty percent of the retail value (defined as the price charged to customers) of the establishment’s displayed merchandise consists of said items; or
- c. At least thirty percent of the establishment’s revenues derive from the sale or rental, for any form of consideration, of said items; or
- d. The establishment maintains at least thirty percent of its floor space for the display, sale, and/or rental of said items (aisles and walkways used to access said items, as well as cashier stations where said items are rented or sold, shall be included in “floor space maintained for the display, sale, and/or rental of said items”); or

- e. The establishment maintains at least five hundred square feet of its floor space for the display, sale, and/or rental of said items (aisles and walkways used to access said items, as well as cashier stations where said items are rented or sold, shall be included in “floor space maintained for the display, sale, and/or rental of said items”); or
 - f. The establishment regularly offers for sale or rental at least two thousand of said items; or
 - g. The establishment regularly features said items and regularly advertises itself or holds itself out, in any medium, by using “adult,” “XXX,” “sex,” “erotic,” or substantially similar language, as an establishment that caters to adult sexual interests.
2. For purposes of this definition, the term “floor space” means the space inside an establishment that is visible or accessible to patrons, excluding restrooms.

J. Adult Business.

An “adult bookstore or adult video store,” an “adult entertainment establishment,” or a “sex paraphernalia store.”

K. Adult Entertainment Establishment.

1. An “adult entertainment establishment” is an enclosed building, or any portion thereof, used for presenting performances, activities, or material relating to “specified sexual activities” as defined in [SMC 17A.020.190](#) or “specified anatomical areas” as defined in [SMC 17A.020.190](#) for observation by patrons therein.
2. A motion picture theater is considered an adult entertainment establishment if the preponderance of the films presented is distinguished or characterized by an emphasis on the depicting or describing of “specified sexual activities” or “specified anatomical areas.”
3. A hotel or motel providing overnight accommodations is not considered an adult entertainment establishment merely because it provides adult closed circuit television programming in its rooms for its registered overnight guests.

L. Adult Family Home.

A residential use as defined and licensed by the state of Washington in a dwelling unit.

M. Agency or Agencies.

The adopting jurisdiction(s), depending on the context.

N. Agricultural Activities.

1. Pursuant to WAC 173-26-020(3)(a), agricultural uses and practices including, but not limited to:
 - a. Producing, breeding, or increasing agricultural products;

- b. Rotating and changing agricultural crops;
 - c. Allowing land used for agricultural activities to lie fallow in which it is plowed and tilled but left unseeded;
 - d. Allowing land used for agricultural activities to lie dormant as a result of adverse agricultural market conditions;
 - e. Allowing land used for agricultural activities to lie dormant because the land is enrolled in a local, state, or federal conservation program, or the land is subject to a conservation easement;
 - f. Conducting agricultural operations; maintaining, repairing, and replacing agricultural equipment;
 - g. Maintaining, repairing, and replacing agricultural facilities, provided that the replacement facility is not closer to the shoreline than the original facility; and
 - h. Maintaining agricultural lands under production or cultivation.
2. The City of Spokane shoreline master program defines agriculture activities as:
- a. Low-intensity agricultural use is defined as passive grazing and plant cultivation; or
 - b. High-intensity agricultural use includes such activities as feedlots, feed mills, packing plants, agricultural processing plants or warehouse for the purpose of processing, packing, and storage of agricultural products.

O. Agricultural Land.

Areas on which agricultural activities are conducted as of the date of adoption of the updated shoreline master program pursuant to the State shoreline guidelines as evidenced by aerial photography or other documentation. After the effective date of the SMP, land converted to agricultural use is subject to compliance with the requirements herein.

P. AKART.

An acronym for “all known, available, and reasonable methods to control toxicants” as used in the sense of the state Water Pollution Control Act and RCW 90.48.520 thereof. AKART shall represent the most current methodology that can be reasonably required for preventing, controlling, or abating the pollutants associated with a discharge. The concept of AKART applies to both point and nonpoint sources of pollution.

Q. Alkali Wetlands.

Alkali wetlands means wetlands characterized by the occurrence of shallow saline water. In eastern Washington, these wetlands contain surface water with specific conductance that exceeds three thousand micromhos/cm. They have unique plants and animals that are not found anywhere else in eastern Washington such as the alkali bee. Conditions within these wetlands cannot be easily reproduced through compensatory mitigation.

R. Alley.

See “Public Way” ([SMC 17A.020.160](#)).

S. Alteration.

A physical change to a structure or site.

1. Alteration does not include normal maintenance and repair or total demolition.
2. Alteration does include the following:
 - a. Changes to the facade of a building.
 - b. Changes to the interior of a building.
 - c. Increases or decreases in floor area of a building; or
 - d. Changes to other structures on the site, or the development of new structures.

T. Alteration of Plat, Short Plat, or Binding Site Plan.

The alteration of a previously recorded plat, short plat, binding site plan, or any portion thereof, that results in a change to conditions of approval or the deletion of existing lots or the change of plat or lot restrictions or dedications that are shown on the recorded plat. An alteration does not include a boundary line adjustment subject to [SMC 17G.080.030](#).

U. Alternative or Post-incarceration Facility.

A group living use where the residents are on probation or parole.

V. [Deleted]

W. [Deleted]

X. [Deleted]

Y. [Deleted]

Z. API 653.

The American Petroleum Institute’s standards for tank inspection, repair, alteration, and reconstruction.

AA. Appeal.

A request for review of the interpretation of any provision of [Title 17 SMC](#).

AB. Appeal – Standing For.

As provided under RCW 36.70C.060, persons who have standing are limited to the following:

1. The applicant and the owner of property to which the land use decision is directed; and
2. Another person aggrieved or adversely affected by the land use decision, or who would be aggrieved or adversely affected by a reversal or modification of the land use decision. A person is aggrieved or adversely affected within the meaning of this section only when all of the following conditions are present:

- a. The land use decision has prejudiced or is likely to prejudice that person;
- b. That person's asserted interests are among those that the local jurisdiction was required to consider when it made the land use decision;
- c. A judgment in favor of that person would substantially eliminate or redress the prejudice to that person caused or likely to be caused by the land use decision; and
- d. The petitioner has exhausted his or her administrative remedies to the extent required by law (RCW 36.70C.060).

AC. Applicant.

An application for a permit, certificate, or approval under the land use codes must be made by or on behalf of all owners of the land and improvements. "Owners" are all persons having a real property interest. Owners include:

1. Holder of fee title or a life estate;
2. Holder of purchaser's interest in a sale contract in good standing;
3. Holder of seller's interest in a sale contract in breach or in default;
4. Grantor of deed of trust;
5. Presumptively, a legal owner and a taxpayer of record;
6. Fiduciary representative of an owner;
7. Person having a right of possession or control; or
8. Any one of a number of co-owners, including joint, in common, by entireties, and spouses as to community property.

AD. Application – Complete.

An application that is both counter-complete and determined to be substantially complete as set forth in [SMC 17G.060.090](#).

AE. Aquaculture.

The farming or culture of food fish, shellfish, or other aquatic plants or animals in freshwater or saltwater areas, and may require development such as fish hatcheries, rearing pens and structures, and shellfish rafts, as well as use of natural spawning and rearing areas. Aquaculture does not include the harvest of free-swimming fish or the harvest of shellfish not artificially planted or maintained, including the harvest of wild stock geoducks on DNR-managed lands.

AF. Aquatic Life.

Shall mean all living organisms, whether flora or fauna, in or on water.

AG. Aquifer or Spokane Aquifer.

A subterranean body of flowing water, also known as the Spokane-Rathdrum Aquifer, that runs from Pend Oreille Lake to the Little Spokane River.

AH. Aquifer Sensitive Area (ASA).

That area or overlay zone from which runoff directly recharges the aquifer, including the surface over the aquifer itself and the hillside areas immediately

adjacent to the aquifer. The area is shown in the map adopted as part of [SMC 17E.050.260](#).

AI. Aquifer Water Quality Indicators.

Common chemicals used for aquifer water quality screening. These are:

1. Calcium,
2. Magnesium,
3. Sodium,
4. Total hardness,
5. Chloride,
6. Nitrate-nitrogen, and
7. Phosphorus.

AJ. Archaeological Areas and Historical Sites.

Sites containing material evidence of past human life, such as structures and tools and/or cultural sites with past significant historical events. These sites are a nonrenewable resource and provided a critical educational link with the past.

AK. Architectural feature.

Ornamental or decorative feature attached to or protruding from an exterior wall or roof, including cornices, eaves, belt courses, sills, lintels, bay windows, chimneys, and decorative ornaments.

AL. Architectural Roof Structure.

Minor tower or turret extending from the cornice or main roof line of a building, typically highlighting a primary corner or building entry. For purposes of the FBC, such features may not be occupied.

1. Area of Shallow Flooding.
A designated AO or AH Zone on the Flood Insurance Rate Map (FIRM).
2. The base flood depths range from one to three feet.
3. A clearly defined channel does not exist.
4. The path of flooding is unpredictable and indeterminate.
5. Velocity flow may be evident.
6. AO is characterized as sheet flow and AH indicates ponding.

AM. Area of Shallow Flooding.

A designated AO or AH Zone on the Flood Insurance Rate Map (FIRM).

1. The base flood depths range from one to three feet.
2. A clearly defined channel does not exist.
3. The path of flooding is unpredictable and indeterminate.
4. Velocity flow may be evident.
5. AO is characterized as sheet flow and AH indicates ponding.

AN. Area of Special Flood Hazard.

The land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. Designation on maps always includes the letters A or V.

AO. Arterial

See:

1. "Principal Arterials" – SMC 17A.020.160,
2. "Minor Arterials" – SMC 17A.020.130,
3. "Collector Arterial" – SMC 17A.020.030_ ((,or))
((4. "Parkway" – SMC 17A.020.160.))

AP. Articulation.

The emphasis of architectural elements, such as windows, balconies, and entries that create a complementary pattern or rhythm, dividing the buildings into smaller identifiable pieces.

AQ. Assisted Living Facility.

A multi-family residential use licensed by the state of Washington as a boarding home pursuant to chapter 18.20 RCW, for people who have either a need for assistance with activities of daily living (which are defined as eating, toileting, ambulation, transfer [e.g., moving from bed to chair or chair to bath], and bathing) or some form of cognitive impairment but who do not need the skilled critical care provided by nursing homes.

1. An "assisted living facility" contains multiple assisted living units.
2. An assisted living unit is a dwelling unit permitted only in an assisted living facility.

AR. Attached Housing.

Two or more dwelling units that are single-family residences on individual lots attached by a common wall at a shared property line. These include:

1. Townhouses,
2. Row houses, and
3. Other similar structures

AS. Attached Structure.

Any structure that is attached by a common wall to a dwelling unit.

1. The common wall must be shared for at least fifty percent of the length of the side of the principal dwelling.
2. A breezeway is not considered a common wall.
3. Structures including garages, carports, and house additions attached to the principal dwelling unit with a breezeway are still detached structures for purposes of this chapter and its administration.

AT. Available Capacity.

Capacity for a concurrency facility that currently exists for use without requiring facility construction, expansion, or modification (RCW 76.70A.020).

AU. Average Grade Level.

Means the average of the natural or existing topography of the portion of the lot, parcel, or tract of real property on that part of the lot to be occupied by the building or structure as measured by averaging the elevations at the center of all exterior walls of the proposed structure.

AV. Awning

A roof-like cover, often made of fabric or metal, designed and intended for protection from the weather or as a decorative embellishment, and which projects from a wall or roof of a structure over a window, walk, or door.

Section 2. That section 17A.020.020 of the Spokane Municipal Code is amended to read as follows:

[Section 17A.020.020](#) "B" Definitions

A. Backed Sign.

[See SMC 17C.240.015.](#)

B. Balloon Sign.

[See SMC 17C.240.015.](#)

C. Bank Carving.

The incorporation of masses of alluvium or other weak bank materials into a stream channel because of undermining, usually in high flow stages.

D. Bank Erosion.

The incorporation of masses of alluvium or other weak bank materials into a stream channel.

E. Bankfull Width.

1. For streams, the measurement of the lateral extent of the water surface elevation perpendicular to the channel at bankfull depth. In cases where multiple channels exist, bankfull width is the sum of the individual channel widths along the cross-section.
2. For lakes, ponds, and impoundments, line of mean high water.
3. For periodically inundated areas of associated wetlands, line of periodic inundation, which will be found by examining the edge of inundation to ascertain where the presence and action of waters are so common and usual, and so long continued in all ordinary years, as to mark upon the soil a character distinct from that of the abutting upland.

F. Banner.

[See SMC 17C.240.015.](#)

- G. Bas-relief
Sculptural form in which shapes or figures are carved in a flat surface and project only slightly from the background.
- H. Base Flood.
1. The flood having a one percent chance of being equaled or exceeded in any given year, also referred to as the “one hundred year flood.”
2. Designation on maps always includes the letters A or V.
- I. Basement.
The portion of a building having its floor sub-grade (below ground level) on all sides.
- J. Bedrock.
Means a general term for rock, typically hard, consolidated geologic material that underlies soil or other unconsolidated, superficial material or is exposed at the surface.
- K. Bee.
Any stage of development of the common domestic honeybee, *Apis mellifera* species.
- L. Beekeeper.
A person owning, possession, or controlling one or more colonies of bees.
- M. Best Available Science.
Current scientific information used in the process to designate, protect, or restore critical areas, which is derived from a valid scientific process.
- N. Best Management Practices.
The utilization of methods, techniques, or products that have been demonstrated to be the most effective and reliable in minimizing environmental impacts.
- O. ~~((Bikeways/Pathways))~~ Bicycle Facilities
Facilities designated for use by ~~((commuters and recreational users on foot or bicycle))~~ bicyclists and sometimes by other non-motorized users. The following types of bikeway facilities are identified and further defined in the ~~((Spokane Regional Pedestrian/Bikeway Plan published by the Spokane Regional Transportation Council))~~ Comprehensive Plan:
1. ~~((Residential bikeway))~~ Bike-Friendly Route.
2. Shared~~((-use))~~ lane.
3. ~~((Paved shoulder))~~ Neighborhood Greenway.
4. Bicycle lane, both striped and physically protected.
5. Shared-use pathway.

P. Binding Site Plan – Final.

A drawing to a scale which:

1. identifies and shows the areas and locations of all streets, roads, improvements, utilities, open spaces, and any other matters provided in [SMC 17G.080.060](#);
2. contains inscriptions or attachments setting forth such appropriate limitations and conditions for the use of the land; and
3. contains provisions making any development be in conformity with the site plan.
4. A binding site plan can only be used on property zoned commercial or industrial.

Q. Binding Site Plan – Preliminary.

A neat and approximate drawing of a proposed binding site plan showing the general layout of streets, alleys, lots, blocks, and other elements required by this chapter. The preliminary binding site plan shall be the basis for the approval or disapproval of the general layout of a binding site plan.

R. Block.

A group of lots, tracts, or parcels within well-defined and fixed boundaries. Blocks shall be recognized as closed polygons, bordered by street right-of-way lines, addition lines, or a combination of the two, unless an alley is desired, in which case a block is comprised of two closed polygons bordered by street and alley right-of-way lines.

S. Block Frontage.

All of the property fronting on one side of a street that is between intersecting or intercepting streets, or that is between a street and a water feature, or end of a dead end street. An intercepting street determines only the boundary of the block frontage on the side of the street which it intercepts.

T. Board.

The board of county commissioners of Spokane County.

U. Boating Facilities.

Boating facilities include uses for boat or launch ramps. Boating facility use generally requires shoreline modification with impacts to the shoreline both waterward and landward of the ordinary high-water marks.

V. Boundary Line Adjustment.

A division made for the purpose of adjusting boundary lines which does not create any additional lot, tract, parcel, site, or division nor create any lot, tract, parcel, site, or division which contains insufficient area and dimension to meet minimum requirements for width and area for a building site.

W. Breakaway Wall.

A wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces, without causing damage to the elevated portion of the building or supporting foundation system.

X. Breezeway.

A breezeway is a roofed passageway joining two separate structures.

Y. Building.

1. A “building” is a structure, or part, used or intended for supporting or sheltering any use or occupancy.
2. The term includes “factory-built structure” and “mobile home.”
3. “Building” does not include a recreational vehicle.
4. “Building” means a structure that has a roof and is enclosed on at least fifty percent of the area of its sides for purposes of administration of zoning provisions.

Z. Building Base

The plinth or platform upon which a building wall appears to rest, helping establish pedestrian-scaled elements and aesthetically tying the building to the ground.

AA. Building Coverage.

Building coverage is the total amount of ground area covered by a structure or structures.

1. For purposes of calculating building coverage, covered porches, covered decks, pergolas, trellis, or other feature covering a deck, patio or porch are considered structures and included in the building coverage calculations.
2. Building coverage also includes uncovered horizontal structures such as decks, stairways, and entry bridges that are more than forty-two inches above grade.
3. The calculation of building coverage includes the measurements of structures from the exterior wall including protrusions such as bay windows, but does not include the eave overhang.

AB. Building Envelope.

The area of a lot that delineates where a building may be placed.

AC. Building Frontage.

The length of any side of a building which fronts on a public street, measured in a straight line parallel with the abutting street

AD. Build-to Line.

An alignment establishing a certain distance from the property line (street right-of-way line) along which the building is required to be built.

AE. Bulkhead.

A solid or open pile wall erected generally parallel to and near the ordinary high-water mark for the purpose of protecting adjacent uplands from water or erosion. Bulkheads are considered a “hard” shoreline stabilization measure.

Section 3. That section 17A.020.030 of the Spokane Municipal Code is amended to read as follows:

Section 17A.020.030 “C” Definitions

A. Candidate Species.

A species of fish or wildlife, which is being reviewed, for possible classification as threatened or endangered.

B. Carport.

A carport is a garage not entirely enclosed on all sides by sight-obscuring walls and/or doors.

C. Cellular Telecommunications Facility.

They consist of the equipment and structures involved in receiving telecommunication or radio signals from mobile radio communications sources and transmitting those signals to a central switching computer that connects the mobile unit with the land-based telephone lines.

D. Central Business District.

The general phrase “central business district” refers to the area designated on the comprehensive plan as the “downtown” and includes all of the area encompassed by all of the downtown zoning categories combined.

E. Certificate of Appropriateness.

Written authorization issued by the commission or its designee permitting an alteration or significant change to the controlled features of a landmark or landmark site after its nomination has been approved by the commission.

F. Certificate of Capacity.

A document issued by the planning services department indicating the quantity of capacity for each concurrency facility that has been reserved for a specific development project on a specific property. The document may have conditions and an expiration date associated with it.

G. Certified Erosion and Sediment Control Lead (CESCL).

An individual who is knowledgeable in the principles and practices of erosion and sediment control. The CESCL shall have the skills to assess the:

1. site conditions and construction activities that could impact the quality of stormwater, and
2. effectiveness of erosion and sediment control measures used to control the quality of stormwater discharges.

The CESCL shall have current certification through an approved erosion and sediment control training program that meets the minimum training standards established by the Washington State department of ecology.

H. Change of Use.

For purposes of modification of a preliminary plat, “change of use” shall mean a change in the proposed use of lots (e.g., residential to commercial).

I. Channel Migration Zone (CMZ).

A corridor of variable width that includes the current river plus adjacent area through which the channel has migrated or is likely to migrate within a given timeframe, usually one hundred years.

J. Channelization.

The straightening, relocation, deepening, or lining of stream channels, including construction of continuous revetments or levees for the purpose of preventing gradual, natural meander progression.

K. City.

The City of Spokane, Washington.

L. Clear Street Width.

The width of a street from curb to curb minus the width of on-street parking lanes.

M. Clear Pedestrian Zone

Area reserved for pedestrian traffic; typically included herein as a portion of overall sidewalk width to be kept clear of obstructions to foot traffic.

N. Clear View Triangle

A clear view maintained within a triangular space at the corner of a lot so that it does not obstruct the view of travelers upon the streets.

1. A right isosceles triangle having sides of fifty feet measured along the curb residential street; or

2. A right triangle having a fifteen-foot side measured along the curb line of the residential street and a seventy-five foot side along the curb line of the intersecting arterial street, except that when the arterial street has a speed limit of thirty-five miles per hour, the triangle has a side along such arterial of one hundred twenty-two feet; or

A right isosceles triangle having sides of seven feet measured along the right-of-way line of an alley and:

- a. the inside line of the sidewalk; or
- b. if there is no sidewalk, a line seven feet inside the curb line.

O. Clear Zone.

An unobstructed, relatively flat area provided beyond the edge of the traveled way for the recovery of errant vehicles.

P. Clearing.

The removal of vegetation or plant cover by manual, chemical, or mechanical means. Clearing includes, but is not limited to, actions such as cutting, felling, thinning, flooding, killing, poisoning, girdling, uprooting, or burning.

Q. Cliffs.

1. A type of habitat in the Washington department of fish and wildlife (WDFW) priority habitat and species system that is considered a priority due to its limited availability, unique species usage, and significance as breeding habitat. Cliffs are greater than twenty-five feet high and below five thousand feet elevation.
2. A "cliff" is a steep slope of earth materials, or near vertical rock exposure. Cliffs are categorized as erosion landforms due to the processes of erosion and weathering that produce them. Structural cliffs may form as the result of fault displacement or the resistance of a cap rock to uniform downcutting. Erosional cliffs form along shorelines or valley walls where the most extensive erosion takes place at the base of the slope.

R. Closed Record Appeal Hearing.

A hearing, conducted by a single hearing body or officer authorized to conduct such hearings, that relies on the existing record created during a quasi-judicial hearing on the application. No new testimony or submission of new evidence and information is allowed.

S. Collector Arterial

((A relatively low speed street serving an individual neighborhood.)) Collector arterials (consisting of Major and Minor Collectors) collect and distribute traffic from local streets to principal and minor arterials. They serve both land access and traffic circulation.

~~((1. Collector arterials are typically two-lane roads with on-street parking.))~~

~~((2. Their function is to collect and distribute traffic from local access streets to principal and minor arterials.))~~

T. Co-location

Is the locating of wireless communications equipment from more than one provider on one structure at one site.

U. Colony

A hive and its equipment and appurtenances, including one queen, bees, comb, honey, pollen, and brood.

V. Commercial Driveway

Any driveway access to a public street other than one serving a single-family or duplex residence on a single lot.

W. Commercial Vehicle.

Any vehicle the principal use of which is the transportation of commodities, merchandise, produce, freight, animals, or passengers for hire.

X. Commission – Historic Landmarks.

The City/County historic landmarks commission.

Y. Community Banner.

See [SMC 17C.240.015](#).

Z. Community Meeting.

An informal meeting, workshop, or other public meeting to obtain comments from the public or other agencies on a proposed project permit prior to the submission of an application.

1. A community meeting is between an applicant and owners, residents of property in the immediate vicinity of the site of a proposed project, the public, and any registered neighborhood organization or community council responsible for the geographic area containing the site of the proposal, conducted prior to the submission of an application to the City of Spokane.
2. A community meeting does not constitute an open record hearing.
3. The proceedings at a community meeting may be recorded and a report or recommendation shall be included in the permit application file.

AA. Compensatory Mitigation.

Replacing project-induced wetland losses or impacts, and includes, but is not limited to, the following:

1. Restoration.

The manipulation of the physical, chemical, or biological characteristics of a site with the goal of returning natural or historic functions to a former or degraded wetland. For the purpose of tracking net gains in wetland acres, restoration is divided into re-establishment and rehabilitation.

2. Re-establishment.

The manipulation of the physical, chemical, or biological characteristics of a site with the goal of returning natural or historic functions to a former wetland. Re-establishment results in a gain in wetland acres (and functions). Activities could include removing fill material, plugging ditches, or breaking drain tiles.

3. Rehabilitation.

The manipulation of the physical, chemical, or biological characteristics of a site with the goal of repairing natural or historic functions of a degraded wetland. Rehabilitation results in a gain in wetland function but does not result in a gain in wetland acres. Activities could involve breaching a dike to reconnect wetlands to a floodplain or return tidal influence to a wetland.

4. Creation (Establishment).

The manipulations of the physical, chemical, or biological characteristics present to develop a wetland on an upland or deepwater site where a wetland did not previously exist. Establishment results in a gain in wetland acres. Activities typically involve excavation of upland soils to elevations that will produce a wetland hydroperiod, create hydric soils, and support the growth of hydrophytic plant species.

5. Enhancement.

The manipulation of the physical, chemical, or biological characteristics of a wetland site to heighten, intensify, or improve specific function(s) or to change the growth stage or composition of the vegetation present. Enhancement is undertaken for specified purposes such as water quality improvement, flood water retention, or wildlife habitat. Enhancement results in a change in some wetland functions and can lead to a decline in other wetland functions, but does not result in a gain in wetland acres. Activities typically consist of planting vegetation, controlling non-native or invasive species, modifying site elevations or the proportion of open water to influence hydroperiods, or some combination of these activities.

6. Protection/Maintenance (Preservation).

Removing a threat to, or preventing the decline of, wetland conditions by an action in or near a wetland. This includes the purchase of land or easements, repairing water control structures or fences or structural protection such as repairing a barrier island. This term also includes activities commonly associated with the term preservation. Preservation does not result in a gain of wetland acres, may result in a gain in functions, and will be used only in exceptional circumstances.

AB. Comprehensive Plan.

The City of Spokane comprehensive plan, a document adopted pursuant to chapter 36.70A RCW providing land use designations, goals and policies regarding land use, housing, capital facilities, housing, transportation, and utilities.

AC. Conceptual Landscape Plan.

A scale drawing showing the same information as a general site plan plus the location, type, size, and width of landscape areas as required by the provisions of chapter 17C.200 SMC.

1. The type of landscaping, L1, L2, or L3, is required to be labeled.
2. It is not a requirement to designate the scientific name of plant materials on the conceptual landscape plan.

AD. Concurrency Certificate.

A certificate or letter from a department or agency that is responsible for a determination of the adequacy of facilities to serve a proposed development, pursuant to chapter 17D.010 SMC, Concurrency Certification.

AE. Concurrency Facilities.

Facilities for which concurrency is required in accordance with the provisions of this chapter. They are:

1. transportation,
2. public water,
3. fire protection,
4. police protection,
5. parks and recreation,
6. libraries,
7. solid waste disposal and recycling,
8. schools, and
9. public wastewater (sewer and stormwater).

AF. Concurrency Test.

The comparison of an applicant's impact on concurrency facilities to the available capacity for public water, public wastewater (sewer and stormwater), solid waste disposal and recycling, and planned capacity for transportation, fire protection, police protection, schools, parks and recreation, and libraries as required in SMC 17D.010.020.

AG. Conditional Use Permit.

A "conditional use permit" and a "special permit" are the same type of permit application for purposes of administration of this title.

AH. Condominium.

Real property, portions of which are designated for separate ownership and the remainder of which is designated for common ownership solely by the owners of those portions. Real property is not a condominium unless the undivided interests in the common elements are vested in unit owners, and unless a declaration and a survey map and plans have been recorded pursuant to chapter 64.34 RCW.

AI. Confidential Shelter.

Shelters for victims of domestic violence, as defined and regulated in chapter 70.123 RCW and WAC 248-554. Such facilities are characterized by a need for confidentiality.

AJ. Congregate Residence.

A dwelling unit in which rooms or lodging, with or without meals, are provided for nine or more non-transient persons not constituting a single household, excluding single-family residences for which special or reasonable accommodation has been granted.

AK. Conservancy Environments.

Those areas designated as the most environmentally sensitive and requiring the most protection in the current shoreline master program or as hereafter amended.

AL. Container.

Any vessel of sixty gallons or less in capacity used for transporting or storing critical materials.

AM. Context Areas

Established by the Regulating Plan, Context Area designations describe and direct differing functions and features for areas within FBC limits, implementing community goals for the built environment.

AN. Contributing Resource

Contributing resource is any building, object, structure, or site which adds to the historical integrity, architectural quality, or historical significance of the local or federal historic district within which the contributing resource is located.

AO. Conveyance.

In the context of chapter 17D.090 SMC or chapter 17D.060 SMC, this term means a mechanism for transporting water from one point to another, including pipes, ditches, and channels.

AP. Conveyance System.

In the context of chapter 17D.090 SMC or chapter 17D.060 SMC, this term means the drainage facilities and features, both natural and constructed, which collect, contain and provide for the flow of surface and stormwater from the highest points on the land down to receiving water. The natural elements of the conveyance system include swales and small drainage courses, streams, rivers, lakes, and wetlands. The constructed elements of the conveyance system include gutters, ditches, pipes, channels, and most flow control and water quality treatment facilities.

AQ. Copy.

[See SMC 17C.240.015.](#)

AR. Cottage Housing.

1. A grouping of individual structures where each structure contains one or two dwelling units.
2. The land underneath the structures may or may not be divided into separate lots.
3. A cottage housing development may contain detached accessory buildings for storing vehicles. It may also include a community building, garden shed, or other facility for use of the residents.
4. The types of units allowed in cottage housing development are detached cottages, attached unit homes and carriage units. For the purposes of [SMC 17C.110.350](#), the definitions of these types are:

a. Cottage. A detached, single-family residential building.

b. Attached Unit Home. A structure containing two dwelling units designed to look like a single-family home.

c. Carriage Unit. A single-family dwelling unit located above a garage structure.

AR. Council.

The city council of the City of Spokane.

AS. County.

Usually capitalized, means the entity of local government or, usually not capitalized, means the geographic area of the county, not including the territory of incorporated cities and towns.

AT. Covenants, Conditions, and Restrictions (CC&Rs).

A document setting forth the covenants, conditions, and restrictions applicable to a development, recorded with the Spokane County auditor and, typically, enforced by a property owner's association or other legal entity.

AU. Creep.

Slow, downslope movement of the layer of loose rock and soil resting on bedrock due to gravity.

AV. Critical Amount.

The quantity component of the definition of critical material.

AW. Critical Aquifer Recharge Areas (CARA).

Critical aquifer recharge areas (CARA) include locally identified aquifer sensitive areas (ASA) and wellhead protection areas.

AX. Critical Areas.

Any areas of frequent flooding, geologic hazard, fish and wildlife habitat, aquifer sensitive areas, or wetlands as defined under chapter 17E.010 SMC, chapter 17E.020 SMC, chapter 17E.030 SMC, chapter 17E.040 SMC, and chapter 17E.070.SMC.

AY. Critical Facility.

A facility for which even a slight chance of flooding might be too great. Critical facilities include, but are not limited to:

1. schools;
2. nursing homes;
3. hospitals;
4. police;
5. fire;
6. emergency response installations; and
7. installations which produce, use, or store hazardous materials or hazardous waste.

AZ. Critical Material.

1. A compound or substance, or class thereof, designated by the division director of public works and utilities which, by intentional or accidental release into the aquifer or ASA, could result in the impairment of one or more of the beneficial uses of aquifer water and/or impair aquifer water quality indicator levels. Beneficial uses include, but are not limited to: domestic and industrial water supply,
 - a. domestic and industrial water supply,
 - b. agricultural irrigation,
 - c. stock water, and
 - d. fish propagation.

Used herein, the designation is distinguished from state or other designation.

2. A list of critical materials is contained in the Critical Materials Handbook, including any City modifications thereto.

BA. Critical Material Activity.

A land use or other activity designated by the manager of engineering services as involving or likely to involve critical materials. A list of critical materials activities is contained in the Critical Materials Handbook.

BB. Critical Materials Handbook.

The latest edition of a publication as approved and amended by the division director of public works and utilities from time to time to accomplish the purposes of this chapter.

1. The handbook is based on the original prepared by the Spokane water quality management program ("208") coordination office, with the assistance of its technical advisory committee. It is on file with the director of engineering services and available for public inspection and purchase.
2. The handbook, as approved and modified by the division director of public works and utilities, contains:
 - a. a critical materials list,
 - b. a critical materials activities list, and
 - c. other technical specifications and information.
3. The handbook is incorporated herein by reference. Its provisions are deemed regulations authorized hereunder and a mandatory part of this chapter.

BC. Critical Review.

The process of evaluating a land use permit request or other activity to determine whether critical materials or critical materials activities are involved and, if so, to determine what appropriate measures should be required for protection of the aquifer and/or implementation of the Spokane aquifer water quality management plan.

BD. Critical Review Action.

1. An action by a municipal official or body upon an application as follows:
 - a. Application for a building permit where plans and specifications are required, except for Group R and M occupancies (SMC 17G.010.140 and SMC 17G.010.150).
 - b. Application for a shoreline substantial development permit (SMC 17G.060.070(B)(1)).
 - c. Application for a certificate of occupancy (SMC 17G.010.170).
 - d. Application for a variance or a certificate of compliance (SMC 17G.060.070(A) or SMC 17G.060.070(B)(1)).
 - e. Application for rezoning (SMC 17G.060.070(A)).
 - f. Application for conditional permit (SMC 17G.060.070(A)).
 - g. Application for a business license (SMC 8.01.120).

- h. Application for a permit under the Fire Code (SMC 17F.080.060).
 - i. Application for a permit or approval requiring environmental review in an environmentally sensitive area (SMC 17E.050.260).
 - j. Application for connection to the City sewer or water system.
 - k. Application for construction or continuing use of an onsite sewage disposal system (SMC 13.03.0149 and SMC 13.03.0304).
 - l. Application for sewer service with non-conforming or non-standard sewage (SMC 13.03.0145, SMC 13.03.0314, and SMC 13.03.0324).
 - m. Application involving a project identified in SMC 17E.010.120.
 - n. Issuance or renewal of franchise; franchisee use of cathodic protection also requires approval or a franchise affecting the City water supply or water system.
 - o. Application for an underground storage tank permit (SMC 17E.010.210); and
 - p. Application for permit to install or retrofit aboveground storage tank(s) (SMC 17E.010.060(A) and SMC 17E.010.400(D)).
2. Where a particular municipal action is requested involving a land use installation or other activity, and where said action is not specified as a critical review action, the City official or body responsible for approval may, considering the objectives of this chapter, designate such as a critical review action and condition its approval upon compliance with the result thereof.

BE. Critical Review Applicant.

A person or entity seeking a critical review action.

BF. Critical Review Officer – Authority.

- 1. The building official or other official designated by the director of public works and utilities.
- 2. For matters relating to the fire code, the critical review officer is the fire official.
- 3. The critical review officer carries out and enforces the provisions of this chapter and may issue administrative and interpretive rulings.
- 4. The critical review officer imposes requirements based upon this chapter, regulations, and the critical materials handbook.
- 5. The officer may adopt or add to any requirement or grant specific exemptions, where deemed reasonably necessary, considering the purpose of this chapter

BG. Critical Review Statement.

A checklist, disclosure form, or part of an application for a critical review action, disclosing the result of critical review. Where not otherwise provided as part of the application process, the critical review officer may provide forms and a time and place to file the statement.

BH. Cumulative Impacts.

The combined, incremental effects of human activity on ecological or critical area functions and values. Cumulative impacts result when the effects of an action are added to or interact with other effects in a particular place and within a particular time. It is the combination of these effects, and any resulting environmental degradation, that should be the focus of cumulative impact analysis and changes to policies and permitting decisions.

BI. Curb Ramp.

A ramp constructed in the sidewalk to allow wheelchair access from the sidewalk to the street.

BJ. Cutbank.

The concave bank of a moving body of water that is maintained as a steep or even overhanging cliff by the actions of water at its base.

Section 4. That section 17A.020.130 of the Spokane Municipal Code is amended to read as follows:

Section 17A.020.130 “M” Definitions

A. Main Assembly Area.

The principal room for persons gathering for religious services.

B. Maintenance.

Or “repair” means those usual activities required to prevent a decline, lapse, or cessation from a lawfully established condition or to restore the character, scope, size, and design of a serviceable area, structure, or land use to a state comparable to its previously authorized and undamaged condition. This does not include any activities that change the character, scope, or size of the original structure, facility, utility, or improved area beyond the original design.

C. Manufactured Home.

1. “Manufactured home” is a single-family dwelling unit constructed after June 15, 1976, built in accordance with department of housing and urban development Manufactured Home Construction and Safety Standards Act, which is a national, preemptive building code.
2. “Manufactured home accessory structure” is any attached or detached addition to a manufactured home, such as an awning, basement, carport, garage, porch, or storage structure, which is ordinarily appurtenant.

D. Manufactured Home Park.

Two or more manufactured homes or mobile homes used as dwelling units on a single parcel or lot.

E. Marquee Sign.

[See SMC 17C.240.015.](#)

F. Marsh.

A low, flat wetland area on which the vegetation consists mainly of herbaceous plants such as cattails, bulrushes, tules, sedges, skunk cabbage, or other hydrophytic plants. Shallow water usually stands on a marsh at least during part of the year.

G. Mean Annual Flow.

The average flow of a river or stream (measured in cubic feet per second) from measurements taken throughout the year. If available, flow data for the previous ten years should be used in determining mean annual flow.

H. Mining.

The extraction and removal of sand, gravel, minerals, or other naturally occurring material from the earth for economic use.

I. Minor Arterials

~~((A two- to four-lane facility which collects and distributes traffic from principal arterials to collector arterials and local access streets.))~~ A street providing service for trips of moderate length, connecting the principal arterial system to local streets, and providing intra-community circulation.

J. Mitigation – Mitigate.

An action which avoids a negative adverse impact and is reasonable and capable of being accomplished.

K. Mitigation – Mitigation Sequencing.

The use of any or all of the following actions listed in descending order of preference:

1. Avoiding the impact altogether by not taking a certain action or parts of an action.
2. Minimizing impacts by limiting the degree or magnitude of the action and its implementation, by using appropriate technology, or by taking affirmative steps to avoid or reduce impacts.
3. Rectifying the impact by repairing, rehabilitating, or restoring the affected environment.
4. Reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action.
5. Compensating for the impact by replacing, enhancing, or providing substitute resources or environments; or
6. Monitoring the impact and the compensation project and taking appropriate corrective measures.

Mitigation may include a combination of the above measures.

L. Mobile Home.

A factory-built dwelling built prior to June 15, 1976, to standards other than the housing and urban development code, and acceptable under applicable state

codes in effect at the time of construction or introduction of the home into the state. Mobile homes have not been built since introduction of the housing and urban development Manufactured Home Construction and Safety Standards Act.

M. Mobile Home Park.

Any real property which is rented or held out for rent to others for the placement of two or more mobile homes, manufactured homes, or park models for the primary purpose of production of income, except where such real property is rented or held out for rent for seasonal recreational purpose only and is not intended for year-round occupancy.

N. Modification to a Preliminary Plat, Short Plat, or Binding Site Plan.

A change, prior to recording, of an approved preliminary plat, preliminary short plat, or binding site plan that includes, but is not limited to, the addition of new lots or tracts, or a change of the boundaries or dimensions of lots or tracts.

O. Modular Home.

A single-family dwelling unit (which may be in the form of a factory-built or manufactured housing permit as well as a standard building permit) constructed in a factory in accordance with International Building Code and bearing the appropriate gold insignia indicating such compliance. The term includes “pre-fabricated,” “panelized,” and “factory-built” units.

P. Modulation.

A measured and proportioned inflection in a building’s face. Articulation, modulation, and their interval create a sense of scale important to residential buildings.

Q. Monitoring.

Periodic evaluation of a wetlands restoration, creation, or enhancement site or habitat management plan area to determine changes at the site, such as vegetation growth, hydrologic changes, soil development, and use of the site by birds and animals.

R. Monument.

A physical survey monument as shown in the City's standard plans.

S. Monument Sign.

[See SMC 17C.240.015.](#)

T. Multi-family Residential Building.

A common wall dwelling or apartment house that consists of three or more dwelling units.

U. Multiple Containment.

A means of spill or leak control involving a containment structure having one or more layers of material between the primary container and the environment.

1. Containment layers must be resistant to the material stored.
2. The volume within the containment system must be at least as large as the primary container.
3. Containment layers may be separated by an interstitial space.

V. Municipal Separate Storm Sewer System (MS4).

A conveyance, or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, or storm drains):

1. owned or operated by a state, city, town, borough, county, parish, district, association, or other public body (created by or pursuant to state law) having jurisdiction over disposal of wastes, stormwater, or other wastes, including special districts under state law such as sewer district, flood control district, or drainage district, designated and approved management agency under section 208 of the Clean Water Act that discharges to water of the United States;
2. designed or used for collecting or conveying stormwater;
3. which is not a combined sewer; and
4. which is not part of a publicly owned treatment works (POTW) as defined at 40 CFR (Code of Federal Regulation) 122.2.

W. MUTCD.

The U.S. department of transportation Manual on Uniform Traffic Control Devices.

Section 5. That section 17A.020.160 of the Spokane Municipal Code is amended to read as follows:

Section 17A.020.160 “P” Definitions

A. Painted Wall Highlights.
[See SMC 17C.240.015.](#)

B. Painted Wall Sign.
[See SMC 17C.240.015.](#)

C. Parcel.
[See “Lot” \(SMC 17A.020.120\).](#)

D. Parkway.
~~((1. A street serving as a principal, minor, or collector arterial, typically with recreational or scenic opportunities.))~~

~~((2. Parkways will often have landscaped medians.))~~

A thoroughfare designated as a collector or arterial, with a median reflecting the park-like character implied in the name - SMC 17D.050A.040.U.

E. Party of Record.

Any person who has appeared at a hearing of the hearing examiner by presenting testimony or making written comment.

F. Paved Area.

1. An uncovered, hard-surfaced area or an area covered with a perforated hard surface (such as “Grasscrete”) that is able to withstand vehicular traffic or other heavy-impact uses.
2. Graveled areas are not paved areas.

G. Pedestrian Buffer Strips (PBS).

A hard-surfaced or planted area(s) between travel or parking lanes and sidewalks, also called planting strips. PBS improves safety by separating vehicles and pedestrians and provide space for drainage, street trees and snow storage.

H. Pedestrian Path

A continuous, unobstructed, reasonably direct route between an on-site parking lot and a Primary Building Entry designed and suitable for pedestrian use. Minimum requirements for Pedestrian Paths are listed in [Section 17C.123.040](#) of the FBC.

I. Pedestrian-Scaled Fixtures (lighting)

Pole-mounted light fixtures placed and designed to illuminate foot-traffic areas including exterior lots, pathways or sidewalks. For purposes of the HFBC, Pedestrian-Scaled Fixtures are defined by height as measured from ground to bottom of shade or bulb.

J. Pedestrian-Scaled Signs

[See SMC 17C.240.015.](#)

K. Pedestrian Street.

1. A street designated on the official zoning map as a pedestrian street where development standards are required to promote a pedestrian friendly street. Pedestrian streets offer a pleasant and safe walking environment. Design features include minimal interruptions of the sidewalk by driveways, publicly usable site furnishing such as benches, tables, and bike racks, and visually interesting buildings close to the sidewalk.

- L. Performance Guarantee.
A “financial guarantee” providing for and securing to the City the actual construction and installation of the required improvements.
- M. Performance/Warranty Retainer.
A “financial guarantee” both providing for and securing to the City the actual construction and installation of such improvements, and securing to the City the successful operation of the improvements for two years after the City’s final inspection and acceptance of the improvements.
- N. Permanent Erosion and Sediment Control Measures.
A combination of plants, mulch, sod, matting, erosion control blankets, and permanent structures that will provide long-term soil stabilization.
- O. Permanent Sign.
[See SMC 17C.240.015.](#)
- P. Permanent Stabilization.
See Permanent Erosion and Sediment Control Measures.
- Q. Permeable Sediment.
Sediment permitting the flow of water.
- R. Person.
Any natural person, whether acting individually or in a representative capacity, partnership, joint venture, corporation, or other legal entity.
- S. Pier.
Any platform structure, fill, or anchored device in or floating upon water bodies to provide moorage for watercraft engaged in commerce, including, but not limited to, wharves, mono-buoys, quays, ferry terminals, and fish weighing station.
- T. Planned Capacity.
For all capital facilities, except transportation, capacity for a concurrency facility that does not exist, but for which the necessary facility construction, expansion, or modification project is contained in the current adopted City of Spokane comprehensive plan, capital improvement program and scheduled to be completed within six years. (RCW 36.70A.020).
- U. Planned Capacity for Transportation Facilities.
Capacity for transportation facilities, including roads and transit, that does not exist, but where transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development.
1. These strategies may include:
 - a. increased public transportation service,

- b. ride sharing programs,
 - c. demand management, and
 - d. other transportation systems management strategies.
2. For transportation facilities, “concurrent with the development” shall mean that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years (RCW 36.70A.070(6)(b)).

V. Planned Unit Development (PUD).

- 1. A planned unit development is a project permit for an overlay zone, approved by the hearing examiner, which does not fully comply with all of the development standards of the base zone in which it is located, but is approved based on superior or innovative design.
- 2. The City may permit a variety of types, design, and arrangement of structures and enable the coordination of project characteristics with features of a particular site in a manner consistent with the public health, safety, and welfare.

W. Plans.

Planning documents, which are developed by the various departments of the City, pertaining to the orderly development of public facilities.

X. Planting Zone

Area for street trees, ground cover or other plantings; typically included herein as a portion of overall sidewalk width reserved for locating permanent trees and tree grates.

Y. Plat – Final.

A map or representation of a subdivision, showing thereon the division of a tract or parcel of land into lots, blocks, streets, alleys, or other divisions and dedications and containing all elements and requirements set forth in this chapter and chapter 58.17 RCW.

Z. Plat – Preliminary.

- 1. A neat and approximate drawing of a proposed subdivision showing the general layout of streets, alleys, lots, blocks, and other elements of a subdivision required by this chapter and chapter 58.17 RCW.
- 2. The preliminary plat shall be the basis for the approval or disapproval of the general layout of a subdivision.

AA. Plaza.

Areas generally open to the public on a controlled basis and used for passive recreational activities and relaxation.

Plazas are paved areas typically provided with amenities, such as seating, drinking, and ornamental fountains, art, trees, and landscaping, for use by pedestrians.

AB. Plinth

The base or platform upon which a building wall or column appears to rest, helping establish pedestrian-scaled elements and aesthetically tying the building to the ground.

AC. Pollutant.

Any substance which is prohibited or limited by applicable laws or regulations, which is released or discharged in conjunction with development. Any substance that causes or contributes to violation of air, land, or water quality standards, released or discharged.

AD. Pollution.

Contamination, or other alteration of the physical, chemical, or biological properties of air, land, water or wetlands, or such discharge of any liquid, gaseous, solid, radioactive, or other substance into air, land, water, or wetlands as will or is likely to cause a nuisance or render such air, land, water, or wetlands harmful, detrimental, or injurious to the public health, safety, or welfare, or to domestic, commercial, industrial, agricultural, recreational, or other legitimate beneficial uses, or to livestock, wildlife, fish, native vegetation, or other aquatic life.

AE. Potential Geologically Hazardous Areas.

Areas designated on maps maintained in the City's planning services department. They are classified "potential" because they have not been confirmed by field investigation nor do they necessarily include the full extent of all geologically hazardous areas within the City. The maps are intended to alert property owners, purchasers, developers, etc., to the possible existence of significant geological hazards, which may warrant further geotechnical study.

AF. Practicable Alternative.

An alternative that is available and capable of being carried out after taking into consideration cost, existing technology, and logistics in light of overall project purposes and having less impact to critical areas. It may involve using an alternative site in the general region that is available to the applicant and may feasibly be used to accomplish the project.

AG. Predevelopment Meetings.

Meetings between City or agency staff and an applicant or their representatives prior to formal submission of a detailed application. They are intended to provide an overview of the regulatory requirements, application process, and procedural submission requirements.

AH. Principal Buildings

Where multiple buildings occupy a single lot, those buildings that are associated with the prevailing use of that site.

AI. Primary Building Entry

Access or entrance of first rank, importance or value, visually associated with the prevailing ground-floor use of a building.

AJ. Primary Building Walls.

Any exterior building wall that faces a street and contains a public entrance to the occupant's premises or tenant space. If an individual tenant space does not have a street facing wall, or does not have a street facing wall containing a public entrance, then the primary building wall for that individual tenant space is any wall containing a public entrance that faces a parking area on the site. (See Figure 1, [SMC 17C.240.130](#), Primary Building Walls)

AK. Primary Container.

The container that is in direct contact with the material of concern during the course of normal transport, use, or storage.

AL. Primary Drainage Basin.

The basin of the stream or tributary within which a project is proposed, not including basins of major tributaries. For the purpose of this regulation the primary drainage basin of:

1. Latah Creek is not a part of the primary drainage basin of the Spokane River,
2. Marshall Creek is not a part of the primary drainage basin of Latah Creek.

AM. Primary Structure.

1. A structure or combination of structures of chief importance or function on a site. In general, the primary use of the site is carried out in a primary structure.
2. The difference between a primary and accessory structure is determined by comparing the size, placement, similarity of design, use of common building materials, and the orientation of the structures on a site.

AN. Primary Use.

1. An activity or combination of activities of chief importance on the site. One of the main purposes for which the land or structures are intended, designed or ordinarily used.
2. A site may have more than one primary use.

AO. Principal Arterials

~~((A four to six lane street serving as a primary facility for access between the central business district, major employment districts, and major shopping centers.))~~ A street serving major activity centers, providing a high degree of mobility and serving the longest trip demands within the urban area.

AP. Priority Habitats.

Habitat areas determined by WDFW to have unique or significant value to many species and that meet one or more of the following criteria:

1. High wildlife density.
2. High species diversity.
3. Important wildlife breeding habitat.
4. Important wildlife seasonal ranges.
5. Important movement corridors.
6. Limited availability.
7. High vulnerability to habitat alteration.

AQ. Priority Species.

A wildlife species requiring protective measures for their perpetuation due to their population status, their sensitivity to habitat alteration, and/or their recreational importance.

AR. Private Street.

Roadway which is not controlled or maintained by a public authority, and which serve two or more properties.

AS. Project Permit or Project Permit Application.

Any land use or environmental permit or license required for a project action, including, but not limited to, building permits, short plats, subdivisions, binding site plans, planned unit developments, conditional uses, shoreline substantial development permits, site plan review, permits, or approvals required by the critical area ordinance, and site specific rezones authorized by a comprehensive plan or subarea plan, but excluding the adoption or amendment of a comprehensive plan, subarea plan, or development regulations, except as otherwise specifically identified under RCW 36.70B.140.

AT. Projecting Sign.

[See SMC 17C.240.015.](#)

AU. Protected Species.

A general classification of animals by WDFW that includes all those species not classified as listed, game, fur-bearing, or non-protected. This also includes all birds not classified as game or non-protected.

AV. Proximity.

That two or more properties are either adjacent or separated by a street or alley.

AW. Public Access.

The public's right to get to and use the City's public waters, the water/land interface and associated shoreline area. It includes physical access that is either lateral (areas paralleling the shore) or perpendicular (an easement or public

corridor to the shore), and/or visual access facilitated by means such as scenic streets and overlooks, viewing towers, and other public sites or facilities.

AX. Public Facilities.

Any City-owned, operated, or contracted public facility or service in whole, or in part, whether existing or planned, including, but not limited to:

1. parks,
2. recreation facilities,
3. playgrounds,
4. streets,
5. transportation facilities,
6. open spaces,
7. fire facilities,
8. storm water drainage ponds, and
9. all such appurtenances and improvements.

AY. Public Property.

Any City-owned real property, air space, or other interest in real estate, including streets, alleys, or other public rights-of-way, owned by or controlled by this municipality or any other governmental unit.

AZ. Public Way.

1. A dedicated "public way" is a tract of land:
 - a. conveyed or reserved by deed,
 - b. dedicated by plat, or
 - c. acquired by decree of court,
 - d. which has been accepted and dedicated by action of the city council to the public right-of-way and for secondary use as an easement for public utilities.
2. An "alley" is a public way, usually not exceeding sixteen feet in width, designed or intended to provide secondary access to abutting properties.

Section 6. That section 17A.020.200 of the Spokane Municipal Code is amended to read as follows:

Section 17A.020.200 "T" Definitions

A. Temporary Erosion and Sediment Control Measures.

Erosion and sediment control devices used to provide temporary stabilization of a site, usually during construction or ground disturbing activities, before permanent devices are installed.

B. Temporary Sign.

A sign placed on a structure or the ground for a specifically limited period of time as provided in [SMC 17C.240.240\(G\)](#).

C. Temporary Structure.

A structure approved for location on a lot by the department for a period not to exceed six months with the intent to remove such structure after the time period expires.

D. Tenant Space.

Portion of a structure occupied by a single commercial lease holder with its own public entrance from the exterior of the building or through a shared lobby, atrium, mall, or hallway and separated from other tenant spaces by walls.

E. Through Pedestrian Zone.

The portion of a sidewalk that is intended for pedestrian travel and is entirely free of permanent and temporary objects.

F. Tideland.

Land on the shore of marine water bodies between the line of ordinary high tide and the line of extreme low tide.

G. Total Maximum Daily Load (TMDL).

A calculation of the maximum amount of a pollutant that a water body can receive and still meet water quality standards, and an allocation of that amount to the pollutant's sources. A TMDL is the sum of the allowable loads of a single pollutant from all contributing point and non point sources. The calculation shall include a margin of safety to ensure that the water body can be used for the purposes the state has designated. The calculation shall also account for reasonable variation in water quality. Water quality standards are set by states, territories, and tribes. They identify the uses for each water body, for example, drinking water supply, contact recreation (swimming), and aquatic life support (fishing), and the scientific criteria to support that use. The Clean Water Act, section 303, establishes the water quality standards and TMDL programs.

H. [Deleted].

I. [Deleted].

J. [Deleted].

K. Tracking.

The deposition of sediment onto paved surfaces from the wheels of vehicles.

L. Tract.

A piece of land created and designated as part of a land division that is not a lot, lot of record or a public right-of-way. Tracts are created and designated for a specific purpose. Land uses within a tract are restricted to those uses consistent with the stated purpose as described on the plat, in maintenance agreements, or through conditions, covenants and restrictions (CC&Rs).

M. Traveled Way.

The area of street which is intended to carry vehicular traffic, ((including)) excluding any shoulders.

N. Type I Application.

An application for a project permit that is subject to an administrative approval and is not categorically exempt from environmental review under chapter 43.21C RCW (SEPA) and the City of Spokane Environmental Ordinance [chapter 17E.050 SMC](#), and does not require a public hearing. Type I applications are identified in [Table 17G.060-1](#) in [chapter 17G.060 SMC](#). These applications may include, but are not limited to, building permits and grading permits.

O. Type II Application.

An application for a project permit that is subject to an administrative decision of a department director, that may or may not be categorically exempt from chapter 43.21C RCW (SEPA), and does not require a public hearing. The Type II applications are identified in [Table 17G.060-1](#) in [chapter 17G.060 SMC](#). These applications may include, but are not limited to, short plats, binding site plans, shoreline substantial development permits, and some conditional use permits; provided, the planning director may require conditional use permits which are otherwise characterized as Type II applications under this title to be submitted and processed as Type III applications when the director issues written findings that the Type III process is in the public interest.

P. Type III Application.

An application for a project permit that is subject to a quasi-judicial decision of the hearing examiner that may or may not be categorically exempt from chapter 43.21C RCW (SEPA) and the City of Spokane Environmental Ordinance [chapter 17E.050 SMC](#) and requires a public hearing. Type III applications are identified in [Table 17G.060-1](#) in [chapter 17G.060 SMC](#). These applications may include, but are not limited to, rezones, conditional use permits, preliminary long plats, or shoreline conditional use permits.
