

Environmental Checklist

File No. _____

Purpose of Checklist:

The State Environmental Policy Act (SEPA) chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An Environmental Impact Statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of checklist for nonproject proposals:

Complete this checklist for nonproject proposals, even though questions may be answered "does not apply."

IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (Part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A. BACKGROUND

1. Name of proposed project, if applicable: Sunset West Rezone

2. Name of applicant: Land Use Solutions & Entitlement Dwight Hume agent

3. Address and phone number of applicant or contact person: _____
9101 N mt. View Lane Spokane WA 99218 509-435-3108

4. Date checklist prepared: 11-16-21

5. Agency requesting checklist: City of Spokane Planning

6. Proposed timing or schedule (including phasing, if applicable): Unknown, may start in Spring of 2023

7. a. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. No

- b. Do you own or have options on land nearby or adjacent to this proposal? If yes, explain. No

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to his proposal. This is a non-project action to change zoning from NR-35 to NR-55. No other approvals will be granted for this site at this time. A project related SEPA checklist will be prepared at time of building permit submittal.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. No

10. List any government approvals or permits that will be needed for your proposal, if known. Zone change, building permits, grading permits, trip distribution analysis, Plan and profile approval for Audubon and 7th Avenue improvements.

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. A schematic site plan has been submitted for illustrative purposes of the height increase requested and to demonstrate compliance with applicable development standards. A more detailed site plan will accompany the project review at building permit phase.

12. Location of the proposal. Give sufficient information to a person to understand the precise location of your proposed project, including a street address, if any, and section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit application related to this checklist. The subject site is bounded by N Govt' Way, on the east; Sunset Highway on the south; Audubon Street on the west and 7th Avenue on the north. Commonly known as the NW corner of Sunset Hwy and N Govt. Way.

13. Does the proposed action lie within the Aquifer Sensitive Area (ASA)? The General Sewer Service Area? The Priority Sewer Service Area? The City of Spokane? (See: Spokane County's ASA Overlay Zone Atlas for boundaries.) _____
Yes _____

14. The following questions supplement Part A.

a. Critical Aquifer Recharge Area (CARA) / Aquifer Sensitive Area (ASA)

(1) Describe any systems, other than those designed for the disposal of sanitary waste, installed for the purpose of discharging fluids below the ground surface (includes systems such as those for the disposal of stormwater or drainage from floor drains). Describe the type of system, the amount of material to be disposed of through the system and the types of material likely to be disposed of (including materials which may enter the system inadvertently through spills or as a result of firefighting activities).
This is a non-project action for a zone change.

(2) Will any chemicals (especially organic solvents or petroleum fuels) be stored in aboveground or underground storage tanks? If so, what types and quantities of material will be stored?
This is a non-project action for a zone change

- (3) What protective measures will be taken to insure that leaks or spills of any chemicals stored or used on site will not be allowed to percolate to groundwater. This includes measures to keep chemicals out of disposal systems.

This is a non-project action for a zone change

- (4) Will any chemicals be stored, handled or used on the site in a location where a spill or leak will drain to surface or groundwater or to a stormwater disposal system discharging to surface or groundwater?

This is a non-project action for a zone change

b. Stormwater

- (1) What are the depths on the site to groundwater and to bedrock (if known)?

This is a non-project action for a zone change

- (2) Will stormwater be discharged into the ground? If so, describe any potential impacts?

This is a non-project action for a zone change

TO BE COMPLETED BY APPLICANT

B. ENVIRONMENTAL ELEMENTS

Evaluation for
Agency Use
Only

1. Earth

- a. General description of the site (circle one): *flat, rolling, hilly, steep slopes, mountains, other*: Generally flat with a basalt underlayment
-
-

- b. What is the steepest slope on the site (approximate percent slope)? N/A
-
-

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland. Basalt

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. No

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill:
This is a non-project action for a zone change.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
This is a non-project action for a zone change

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?
See illustrative site plan. Approximately 90%

h. Proposed measures to reduce or control erosion or other impacts to the earth, if any:
This is a non-project action for a zone change

2. Air

a. What type of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial, wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known. _____
This is a non-project action for a zone change

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. _____
This is a non-project action for a zone change

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

This is a non-project action for a zone change

3. Water

a. SURFACE:

(1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

no

(2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

no

(3) Estimate the amount of fill and dredge material that would be placed in or removed from the surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

N/A

(4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

No

(5) Does the proposal lie within a 100-year floodplain? ____ If so, note location on the site plan.

No

- (6) Does the proposal involve any discharge of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

This is a non-project action for a zone change

b. GROUND:

- (1) Will groundwater be withdrawn, or will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

This is a non-project action for a zone change

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sanitary waste treatment facility. Describe the general size of the system, the number of houses to be served (if applicable) or the number of persons the system(s) are expected to serve.

This is a non-project action for a zone change

c. WATER RUNOFF (INCLUDING STORMWATER):

- (1) Describe the source of runoff (including stormwater) and method of collection and disposal if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

This is a non-project action for a zone change

- (2) Could waste materials enter ground or surface waters? If so, generally describe.

This is a non-project action for a zone change

- d. PROPOSED MEASURES to reduce or control surface, ground, and runoff water impacts, if any.

This is a non-project action for a zone change

4. Plants

- a. Check or circle type of vegetation found on the site:
 - Deciduous tree: *alder, maple, aspen, other.*
 - Evergreen tree: *fir, cedar, pine, other.*
 - Shrubs
 - Grass
 - Pasture
 - Crop or grain
 - Wet soil plants, *cattail, buttercup, bullrush, skunk cabbage, other.*
 - Water plants: *water lilly, eelgrass, milfoil, other.*
 - Other types of vegetation.

- b. What kind and amount of vegetation will be removed or altered? Existing vegetation will be removed

- c. List threatened or endangered species known to be on or near the site. None

- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: This is a non-project action for a zone change

5. Animals

- a. Circle any birds and animals which have been observed on or near the site are known to be on or near the site:
 - birds: *hawk, heron, eagle, songbirds, other.* _____
 - mammals: *deer, bear, elk, beaver, other.* _____
 - fish: *bass, salmon, trout, herring, shellfish, other.* _____
 - other: This is a non-project action for a zone change _____

Only

- b. List any threatened or endangered species known to be on or near the site.

unknown

- c. Is the site part of a migration route? If so, explain.

unknown

- d. Proposed measures to preserve or enhance wildlife, if any:

None

6. Energy and natural resources

- a. What kinds of energy (electric, natural gas, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

This is a non-project action for a zone change

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

This is a non-project action for a zone change

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

This is a non-project action for a zone change

7. Environmental health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

This is a non-project action for a zone change

- (1) Describe special emergency services that might be required.

This is a non-project action for a zone change

- (2) Proposed measures to reduce or control environmental health hazards, if any:

This is a non-project action for a zone change

b. NOISE:

- (1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

Traffic and railroad overpass.

- (2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

This is a non-project action for a zone change

- (3) Proposed measure to reduce or control noise impacts, if any:

This is a non-project action for a zone change

8. Land and shoreline use

- a. What is the current use of the site and adjacent properties?

Vacant, on site, North future apartments, east, office and motel
Church and motel, south and Ascenda housing west.

- b. Has the site been used for agriculture? If so, describe. _____
no

- c. Describe any structures on the site. _____
None

- d. Will any structures be demolished? If so, which? _____
No

- e. What is the current zoning classification of the site? _____
NR-35 to become NR-55

- f. What is the current comprehensive plan designation of the site? Mini-Center

- g. If applicable, what is the current shoreline master program designation of the site?
No

- h. Has any part of the site been classified as a critical area? If so, specify. _____
None

- i. Approximately how many people would reside or work in the completed project?
This is a non-project action for a zone change

- j. Approximately how many people would the completed project displace? none

- k. Proposed measures to avoid or reduce displacement impacts, if any: N/A

- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: _____
Compliance with applicable development standards

9. Housing

- a. Approximately how many units would be provided, if any?
Indicate whether high, middle or low-income housing. _____
This is a non-project action for a zone change, Future use is a mixed retail
And residential _____
- b. Approximately how many units, if any, would be eliminated?
Indicate whether high-, middle- or low-income housing. _____
none _____
- c. Proposed measures to reduce or control housing impacts, if
any: This is a non-project action for a zone change _____

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not
including antennas; what is the principal exterior building
material(s) proposed? 55 ft. This is a non-project action for a zone
change _____

- b. What views in the immediate vicinity would be altered or
obstructed? This is a non-project action for a zone change _____

- c. Proposed measures to reduce or control aesthetic impacts,
if any: This is a non-project action for a zone change _____

11. Light and Glare

- a. What type of light or glare will the proposal produce? What
time of day would it mainly occur? This is a non-project action for a zone change _____

- b. Could light or glare from the finished project be a safety hazard or interfere with views? _____
This is a non-project action for a zone change

- c. What existing off-site sources of light or glare may affect your proposal? _____
none

- d. Proposed measures to reduce or control light and glare impacts, if any: Indirect lighting

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity? Finch Arboretum , Centennial Trail,

- b. Would the proposed project displace any existing recreational uses? If so, describe. No

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: None

13. Historic and cultural preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe. No

- b. Generally describe any landmarks or evidence of historic archaeological, scientific or cultural importance known to be on or next to the site.
Unknown

- c. Proposed measures to reduce or control impacts, if any: _____
None

14. Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any. See illustrative site plan. Access will be limited to Audubon and 7th Avenue. No arterial access.

- b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop? Yes, at the site.
- c. How many parking spaces would the completed project have? How many would the project eliminate? _____
This is a non-project action for a zone change
- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets not including driveways? If so, generally describe (indicate whether public or private). See above

- e. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe. _____
It is near the BN overpass

- f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak would occur. This is a non-project action for a zone change

(Note: to assist in review and if known indicate vehicle trips during PM peak, AM Peak and Weekday (24 hours).)

- g. Proposed measures to reduce or control transportation impacts, if any: Limit access to non-arterial streets

15. Public services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. _____
No

- b. Proposed measures to reduce or control direct impacts on public services, if any: None foreseen

16. Utilities

- a. Circle utilities currently available at the site: *electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other*. All utilities are at the site

- b. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed. This is a non-project action for a zone change

C. SIGNATURE

I, the undersigned, swear under penalty of perjury that the above responses are made truthfully and to the best of my knowledge. I also understand that, should there be any willful misrepresentation or willful lack of full disclosure on my part, the *agency* must withdraw any determination of Nonsignificance that it might issue in reliance upon this checklist.

D. SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS
(Do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage or release of toxic or hazardous substances; or production of noise?
Dust would occur during construction and ground work

Proposed measures to avoid or reduce such increases are:
Dust abatement procedures would be implemented

2. How would the proposal be likely to affect plants, animals, fish or marine life?
There would be no impact to flora and fauna

Proposed measures to protect or conserve plants, animals, fish or marine life are:
N/A

3. How would the proposal be likely to deplete energy or natural resources?
No depletion of natural resources should occur

Proposed measures to protect or conserve energy and natural resources are:
Development in compliance with local energy codes.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection, such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, flood plains or prime farmlands?

N/A

Proposed measures to protect such resources or to avoid or reduce impacts are:

N/A

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

There would be no adverse impact. This is implementing the purpose of the Mini-Center designation. Development should stimulate renewal of this area.

Proposed measures to avoid or reduce shoreline and land use impacts are:

Development per development regulations and review and approval by reviewing agencies.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

There is a bus stop at the site along Sunset Hwy frontage. No impacts are expected.

Proposed measures to reduce or respond to such demand(s) are:

None

7. Identify, if possible, whether the proposal may conflict with local, state or federal laws or requirements for the protection of the environment.

N/A

C. SIGNATURE

FOR STAFF USE ONLY

Staff member(s) reviewing checklist: _____

Based on this staff review of the environmental checklist and other pertinent information, the staff concludes that:

- A. there are no probable significant adverse impacts and recommends a Determination of Nonsignificance.
- B. probable significant adverse impacts do exist for the current proposal and recommends a Mitigated Determination of Nonsignificance with conditions.
- C. there are probable significant adverse environmental impacts and recommends a Determination of Significance.
