IMPORTANT!

FIBER-OPTIC NETWORK CONSTRUCTION IS ABOUT TO BEGIN.

Bringing fiber optics to your neighborhood may affect your property. Please be advised that:

1. A contractor will be in your area marking underground utilities with flags or spray paint.
2. Property owner is responsible for:
 - ✓ clearly marking any privately owned facility (e.g. watering system, invisible fence, security system, or private power) with flags or spray paint
 - ✓ calling the construction hotline at 1-855-259-8576

DURING CONSTRUCTION, we'll use drilling and/or plowing techniques that are designed to limit disruptions. We'll also use existing utility easements, backyard pole lines, and public rights-of-way as much as possible. However, there will be areas where digging is required. Construction will be completed as quickly as possible.

We'll promptly clean up and restore any areas disrupted by construction. If construction is interrupted due to winter weather, we will return in the spring and complete cleanup efforts.
