and 6 PM.

We appreciate your support and look forward to your involvement in these transformational projects!

About the Project

The City of Spokane, the Northeast Public Development Authority (NEPDA) and the Environmental Protection Agency (EPA) are partnering with local businesses and community members to revitalize the Hillyard Industrial Area, known as THE YARD.

You can help by participating in upcoming community meetings.

Community Meeting #1 will familiarize you with the grant projects and give you an opportunity to provide feedback on projects.
