(1) Highest % Change refers to the comparison of 2009 to 2010 usage and is not a percent difference
100% reflects no change

(2) Limitations: Fire, Library, and Wastewater meters are not all yet fully accounted for in the "Highest Rate" & "Highest % Change" columns.

(3) This is the highest rate for a particular meter register averaged over the period between readings.
This may or may not be the highest rate used at the location.
