<b>974,292,847</b>	<b>820,660,919</b>	<b>16</b>	<b>City Government Total</b>
<b>364</b>	<b>183</b>	<b>50</b>	<b>Cooling Degree Days</b>
		<b>-40</b>	<b>Precipitation (Apr-Sep)</b>

- (1) East Central Community Center reduction reflects in part a significant leak fix.
- (2) Finance water use is for YMCA property during transition & demolition.
- (3) Library increase in use is thought to reflect a leaking pipe at the South Hill Library.
- (4) Real Estate accounted for water use is for Under Freeway Parking only..  
The increases reflected here are being investigated.
- (5) This accounting of water use reflects traffic islands switched for both years  
from Streets Dept. & Parks Dept. to Water Dept.
- (6) The Water Dept. has been adding meters to account for their own Dept's water use not  
previously metered. The data for these new meters is expected to be available next year.
