**WHAT COUNTS AS INCOME?  
WHO IS CONSIDERED A HOUSEHOLD MEMBER?**

Look at the income chart. Find your household size. Find your total household income. If members in the household are paid at different times during the month and you are unsure if your household is eligible, fill out an application and we will determine your income eligibility for you. The information you give will be used to determine your child's eligibility for free or reduced-price meals.

**HOUSEHOLD** is defined as all persons, including parents, children, grandparents, and all people related or unrelated who live in your home and share living expenses. If applying for a household with a foster child, you may include the foster child in the total household size.

**HOUSEHOLD INCOME** is considered to be the income each household member received before taxes. This includes wages, social security, pension, welfare, child support, unemployment, alimony, and any other cash income. If including a foster child as part of the household, you must also include the foster child's personal income. Do not report foster payments as income.
