The Health Benefits of Art

Creating art is a powerful way to connect to our deepest emotions and self. Anyone can create art! The trick is letting go of self-judgment and caring more about the process of creativity than whether the creation is "good enough."

Like with any wellness tool, the goal is to enhance your feelings of well-being. Think about these facts:

- Creating art allows us to be mindful and fully present in the moment.
- Creative projects help our brains and bodies feel better. It's been shown that all kinds of creativity raise self-esteem and produce dopamine in our brains, which makes us feel good, gives us a sense of accomplishment, and enhances our wellness.
- Creating art is so powerful an act that art therapy is often used to help people heal emotionally from depression, trauma/PTSD, stress, and more.
- Art can be created by anyone of all ages, using their hands, feet or mouth.
- People with cognitive differences, limb impairment, neurodiversity, etc. can all participate in creative expression, making it a universal wellness tool.

6 weeks | Ages 16yrs. & Up | Colin Hayes Now 2 days per week! Join us as we begin to explore drawing fundamentals! 6:15-8:15pm

NEW! Portrait Drawing

6 weeks | Ages 16yrs. & Up | Tom Quinn It's a common belief that no subject is more difficult than a human likeness. Actually, a good portrait calls for the same skills of observation and experience as a landscape or a still life. An artist who attains confidence at drawing portraits will have the confidence to draw anything. We begin with the anatomy and proportions of the human head and move on to the skills of creating a convincing likeness. \$85

14951 Mon. 1/29-3/4

1-3pm

Perspective Drawing

1 day | Ages 16yrs. & Up | Tom Quinn Perspective is to drawing what grammar is to writing and scales are to music. It provides a structure to art by dictating where objects must be placed and which directions the angles go to achieve that vital third dimension of depth. From one-point, two-point and three-point perspective, we move on to circles, shadows, and reflections. Best of all you do not have to be an artist to draw well in perspective — when you know how to use the tools, they do the drawing for you. \$85

14952 Tues. 1/30-3/5

6:30-8:30pm

Caricature Drawing

1 day | Ages 16yrs. & Up | Tom Quinn Caricature is an old and respected art form. It's also a lucrative sideline for a professional artist. In this workshop, we'll discuss the ways to exaggerate and simplify an individual's distinctive features to depict someone in a way that's both funny and instantly recognizable. The instructor has been drawing caricatures professionally for over 30 years and has learned to draw them both at leisure and under intense time pressure. He'll draw a caricature of each of the students, and they intern will draw each other and celebrities from the worlds of entertainment, politics, and sports. \$75

Drawing Hands

1 day | Ages 16yrs. & Up | Tom Quinn The hand is one of the most difficult parts of the human body for the artist to master. In this workshop, we'll cover the anatomy of the human hand, including bones, muscles, and blood vessels. After drawing skeletal hands, we'll be drawing the hands of a model in different positions and situations. Supply list included with registration confirmation. \$75

QI GONG

Wellness benefits of Qi Gong - Qi Gong, a mind-body practice, has been linked to various health benefits. Research (Jahnke et al., 2010) indicates that Qi Gong improves balance, reduces anxiety, and enhances immune function. It also shows promise in alleviating symptoms of chronic diseases such as hypertension (Lee et al., 2013), making it beneficial for overall well-being.

Great White Crane Qi Gong

6 weeks | Ages 16yrs. & Up | Jeff Thompson Qi Gong of the Great White Crane is a fun and graceful form that works primarily on supporting the lungs and respiratory system. The lungs are the first line of defense in our bodies and the foundation of our immune system. Due to the nature of our stressful lifestyles, our breathing patterns are often affected negatively thus inhibiting the natural rhythm and function of the lungs. Disharmony of the lungs may lead to problems such as increased allergies, asthma, issues with bowel movements, and changes with the skin. Practicing this form will help you prepare your body for the challenges of the Winter cold and flu season. **Finch Arboretum, 3404 W. Woodland Blvd.** **\$69**

In this class, we will also learn other subtle Qi Gong and movement techniques to support your overall well-being. This is a very fun set of exercises for people of all ages. **Finch Arboretum, 3404 W. Woodland Blvd.** **\$69**
