How the Camp Themes Work

Summer Day Camp @ Merkel is designed so that each week stands on its own, while still offering variety and growth throughout the summer.

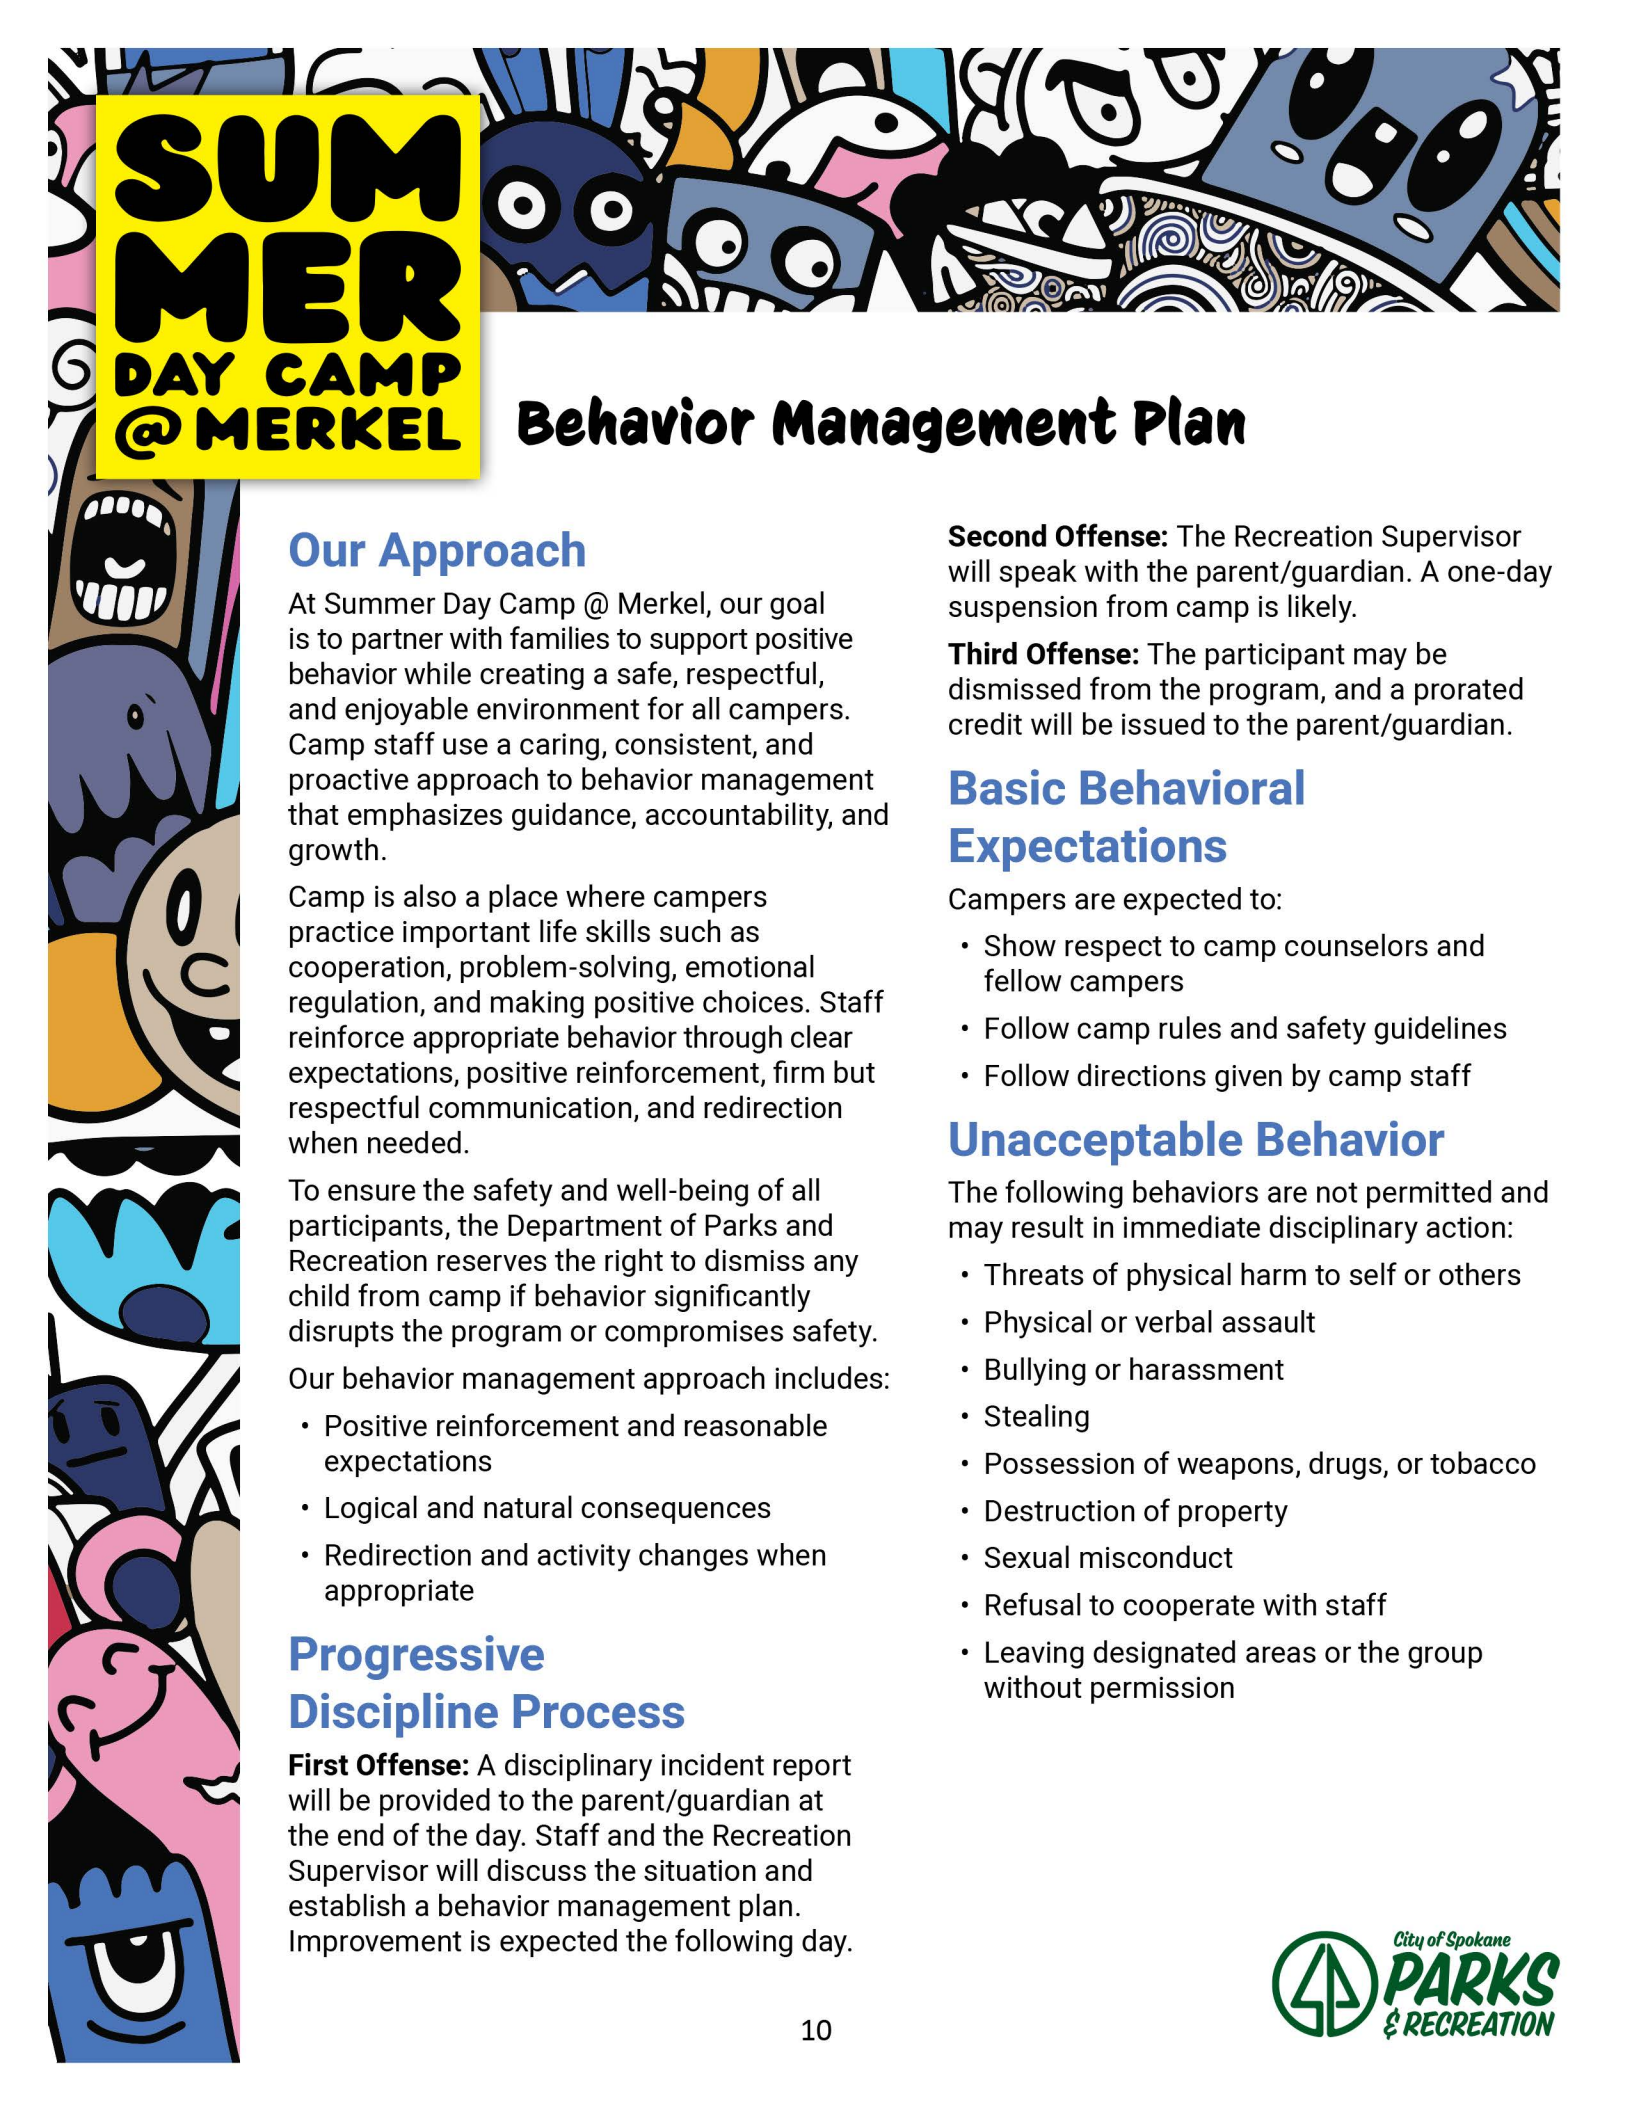

Our camps are organized into three program tracks:

- **Adventure & Exploration weeks** focus on movement, teamwork, imaginative play, and outdoor challenges.
- **STEM & Strategy weeks** emphasize critical thinking, problem-solving, collaboration, and games that build brainpower.
- **Art & Science (ArtSci) weeks** blend creativity and experimentation through hands-on art, design, and simple science activities inspired by the scientific method.

Some popular camps return as sequels or advanced levels. These weeks build on familiar themes while introducing new challenges and experiences. Campers do not need to attend earlier sessions to participate—each week is designed to be welcoming and complete on its own.

You may notice that some weeks feel different, and that's intentional. Week 1 serves as a fun kickoff to the summer, while Week 8 is a special capstone week featuring favorite activities from across the season.

This structure allows families to choose any week based on interest, schedule, or energy level, while keeping camp fresh, engaging, and age-appropriate for all campers.

Behavior Management Plan

Our Approach

At Summer Day Camp @ Merkel, our goal is to partner with families to support positive behavior while creating a safe, respectful, and enjoyable environment for all campers. Camp staff use a caring, consistent, and proactive approach to behavior management that emphasizes guidance, accountability, and growth.

Camp is also a place where campers practice important life skills such as cooperation, problem-solving, emotional regulation, and making positive choices. Staff reinforce appropriate behavior through clear expectations, positive reinforcement, firm but respectful communication, and redirection when needed.

To ensure the safety and well-being of all participants, the Department of Parks and Recreation reserves the right to dismiss any child from camp if behavior significantly disrupts the program or compromises safety.

Our behavior management approach includes:

- Positive reinforcement and reasonable expectations
- Logical and natural consequences
- Redirection and activity changes when appropriate

Progressive Discipline Process

First Offense: A disciplinary incident report will be provided to the parent/guardian at the end of the day. Staff and the Recreation Supervisor will discuss the situation and establish a behavior management plan. Improvement is expected the following day.

Second Offense: The Recreation Supervisor will speak with the parent/guardian. A one-day suspension from camp is likely.

Third Offense: The participant may be dismissed from the program, and a prorated credit will be issued to the parent/guardian.

Basic Behavioral Expectations

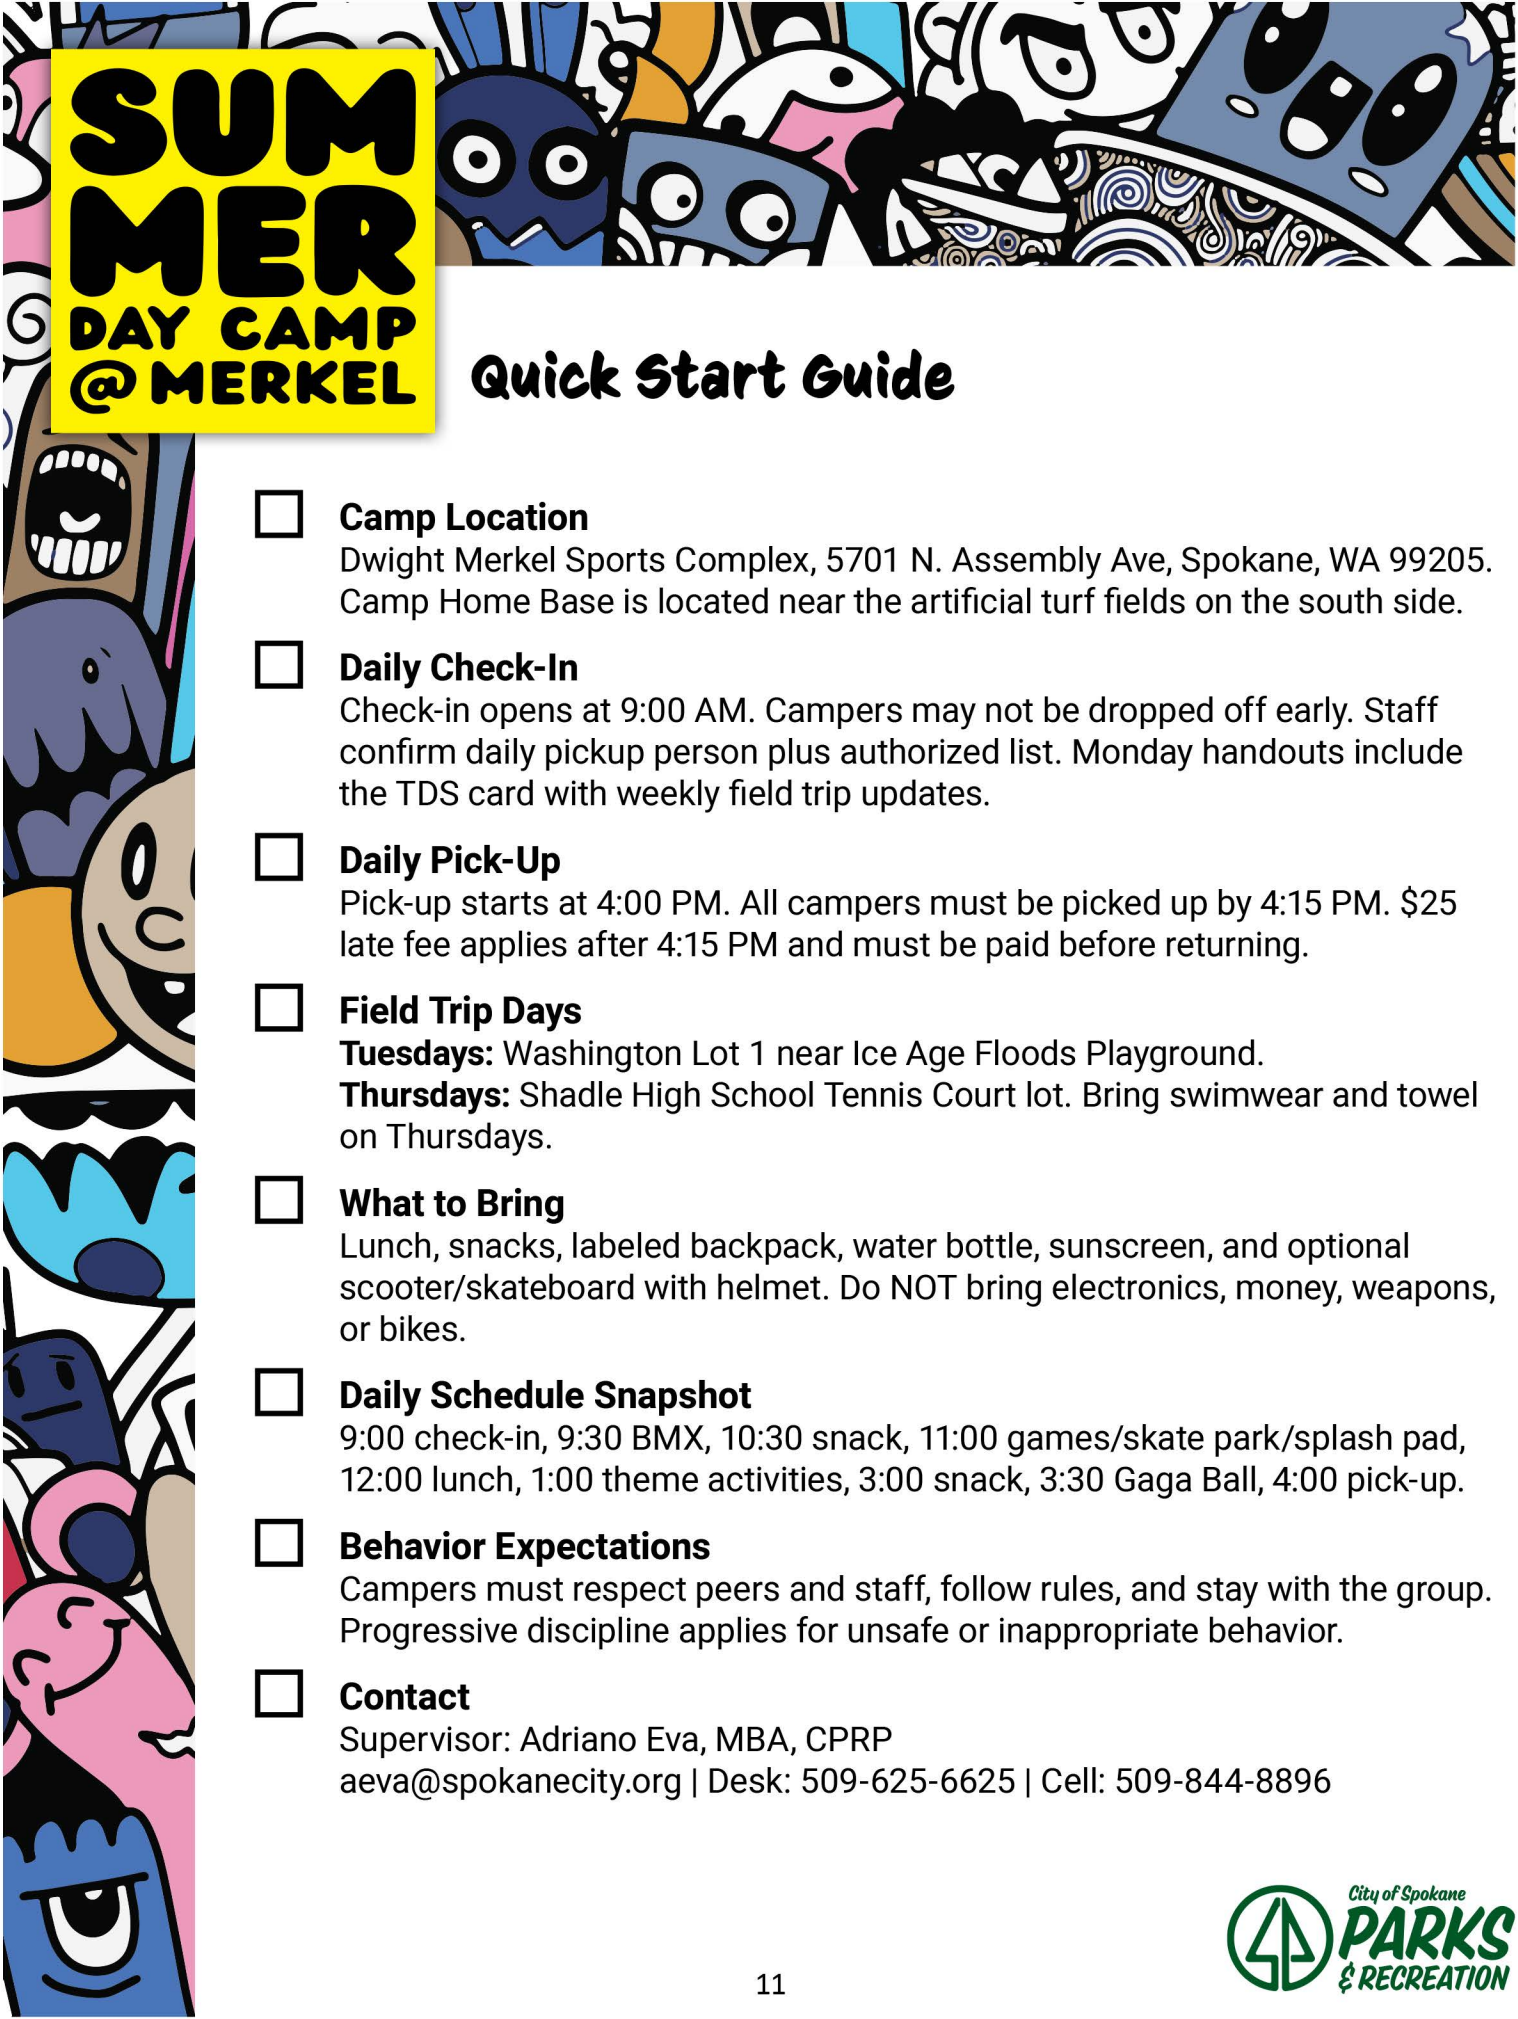

Campers are expected to:

- Show respect to camp counselors and fellow campers
- Follow camp rules and safety guidelines
- Follow directions given by camp staff

Unacceptable Behavior

The following behaviors are not permitted and may result in immediate disciplinary action:

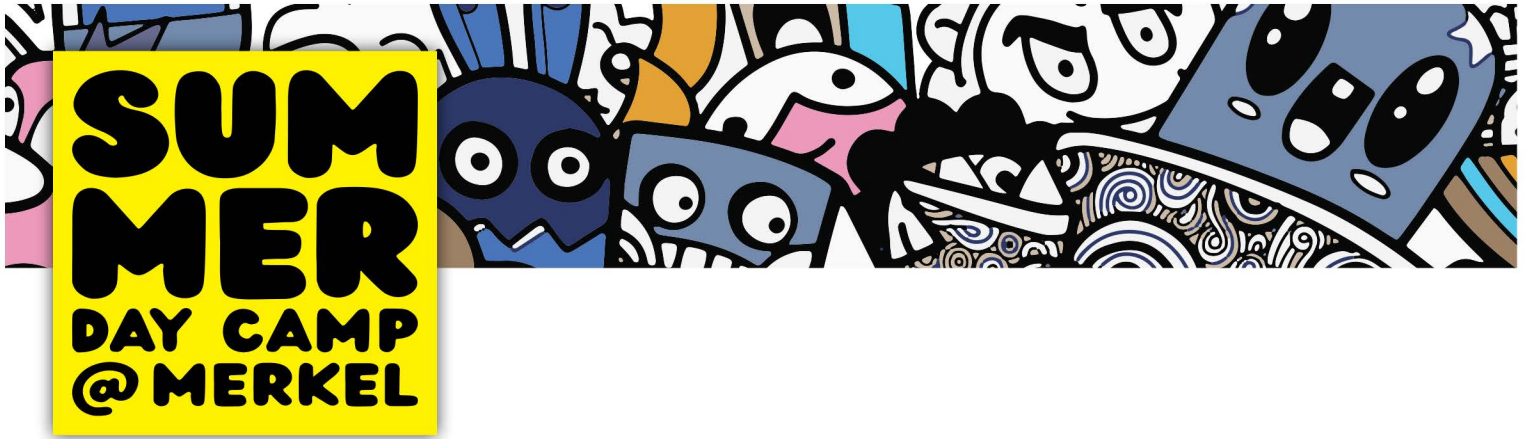

- Threats of physical harm to self or others
- Physical or verbal assault
- Bullying or harassment
- Stealing
- Possession of weapons, drugs, or tobacco
- Destruction of property
- Sexual misconduct
- Refusal to cooperate with staff
- Leaving designated areas or the group without permission
