

Transportation Operations Outdoor and TRS Programs

Transportation Operations for programs:

- Online registration option for participant to drive themselves and receive a discount on registration.
- Face coverings required to be worn for the entire van ride
- Masks provided if needed
- Temperature and health check prior to boarding
- Participants must spread out as much as possible within the vehicle with at least one row of empty seats between participants not of the same household
- Participants must use the same seat for the duration of the activity transportation periods
- Only same household members are allowed to sit next to one another in the vehicles
- Increase airflow inside the vehicle with circulating outside air and opening windows
- Block off seats behind driver to maximize distance between passengers
- Sanitizing of common high touch areas before participants enter and after they exit the vehicle as follows:
 - Outside door handles
 - Inside door handles and surrounding surfaces
 - Instrument controls, gear shifts, control knobs
 - Steering wheel
 - Cup holders
 - Seats
 - Windows
 - Seat belts
 - Center console
 - Keys and key fobs
 - Seat adjustment controls
- Approved cleaning supplies provided by dept such as Lysol wipes & spray, CP64 disinfectant and bleach spray
