

8am - 11am at The Tribal Gathering Place, next to Mobius Discovery Center
Event is free + open to the public | Mobius will open at 10am, regular admission applies

Join us for an eclipse viewing party, with eclipse-themed hands-on activities and demos!

Viewers across the western United States will observe the Moon obscuring the Sun and see the “Ring of Fire” visible during annular eclipses. Although Spokane is not in the direct path of the eclipse, coverage will be about 74% at approximately 9:23am.

The FIRST 200 eclipse chasers will receive complimentary ISO 12312-2 eclipse viewing glasses! Remember: protective eyewear is necessary to avoid eye damage.
