INITIAL SITE CONSIDERATION

OTHER POTENTIALS:

CENTRAL GREEN

Clock Tower Meadow

Lilac Bowl

East Havermale
KEY DESIGN ELEMENTS FOR RIVERFRONT PARK

• INTERACTIVE- An inviting artwork that engages visitors to participate in a collaborative experience with art and Nature. Create a space that the public will want to visit often and stay a while.
  - Playful & Inspiring
  - Layered, Colorful & Textural
  - A new experience each time.
  - “Hashtag-able”

• SITE SPECIFIC
  - An artwork that relates to the rich geological history of our region.
  - Gives consideration to the park’s design focus and existing artwork.
  - Designed at a scale that will draw visitors in from afar.

• ACCESSIBLE- An artwork that can be enjoyed by all, regardless of age, ability and background.

• FUNCTIONAL- Safe, durable & low maintenance- providing opportunities for rest and shade/protection.

• A BELOVED DESTINATION in Riverfront Park and Spokane for years to come- enjoyed by visitors and residents alike.
Custom Perforated Aluminum Panels
Anodized color: copper/bronze
PLAN LAYOUT

LIGHTING

• LED strip lighting mounted in a channel at top edge of corrugations.

• Casts light downward causing a glow from within.

• Keeps interior well-lit and highly visible at night.

• columnar basalt seating clusters 18-22"

• 3x4 aluminum posts

• caps on all corrugations
FUNCTIONAL CONSIDERATIONS

- There are **two large entry points** to the interior of the sculpture. All pathways will be ADA compliant in width.

- Compacted crushed basalt is **ADA compliant** and will be a nice material for the interior floor of the sculpture.

- **FOOTINGS:** Will be required for the posts and will be poured to **engineered** specifications.

- **FABRICATION:** Custom perforated panels will be ordered, pre-formed and anodized (10 weeks lead time on order.) Final assembly/fabrication will be handled by myself or a fabrication facility in WA. Accurate Perforating & Precision Cutting Technologies have provided me with initial project estimates.

MAINTENANCE: Spray/wipe-on surface protectants are available and provide protection for 12 to 24 months in the harshest environments. They protect the finish & make subsequent maintenance easier. Subsequent maintenance may be reduced to simply flushing the surface with water, permitting it to dry, and wiping on a surface protectant every few years.

**NO:** Ammonia, Alkaline Cleaners, Lye, Strong Acids, contact with concrete or dissimilar metals

**YES:** Alcohol, Acetone, Mild Soap/detergent, MEK, organic solvents, aluminum or zinc coated stainless fasteners
