Wildfire Debris Disposal

Victims of the Oregon Rd and Gray wildfires are encouraged to use their insurance claim process and a certified waste contractor for property clean up.

The City of Spokane's Waste to Energy facility will now accept fire damaged materials which are recognizable and free of ash if accompanied by an asbestos survey.

For location and hours,
call 509-625-6580
or go to
my.spokanecity.org

Accepted items include:

- Household items and furniture
- Clothing
- Household Hazardous Waste
- Bagged spoiled food
- Appliances
- Charred yard waste (oversized items will be charged the garbage rate)

Materials must be accompanied by a conventional asbestos survey or an alternate asbestos survey from an AHERA building inspector showing no asbestos. A copy must be left at the scalehouse when disposing of debris.

Items NOT accepted at Waste To Energy include:

- Asbestos containing material
- Presumed asbestos containing material
- Materials without an asbestos survey
- Ash, soil, and items burned beyond recognition
- Complete loads mixed with the any of the above items will be rejected

Ash, asbestos containing material or presumed asbestos containing material must be taken to Graham Rd Landfill:

1820 S. Graham Road
Medical Lake, WA 99022

*509-244-0151

**Call ahead for an appointment and documentation requirements.*
