

# Spokane Matters 2018

Continue with I-90 Lighting

# Who

Val Melvin, Senior Traffic Engineer, Streets Department

Adam Miles, Associate Traffic Engineer, Streets Department

# What

Convert under freeway lighting from old 100-watt, high-pressure sodium fixtures to 107-watt LED.

# Where

Under I-90 parking lots from Madison to East of Lincoln

# When

Installed during June 2018

# Why

Continuation of work on the original need identified by Captain Dave Richards during Spokane Matters 1.0

# How

35 Fixtures purchased using the Street Lighting Operations maintenance budget

Fixtures ordered May 2018, Installed June 2018 by S&L Crews

Still need to identify a dedicated funding source to complete LED conversion.  
S&L funds are normally designated for maintenance and operations, not capital expenses.
