

Spokane Matters 2.0

2018

Ronald McDonald House Lighting and Wayfinding

Who

Chris Wherity, MultiCare Community Outreach Director

Mike Forness, Ronald McDonald House Executive Director

Omar Akkari, City of Spokane Urban Planner

Dean Gunderson, City of Spokane Sr. Urban Designer

What

Addressing safety with improved lumens and wayfinding around the Ronald McDonald House block

Where

City of Spokane Downtown District

Ronald McDonald House, 5th Avenue between Monroe and Jefferson St.

When

- Project timeline has not been set as of yet
- 4/27/18 RMHF block visual survey completed by Chris, Omar A and Dean G
- 5/2/18 meeting scheduled with Mike Forness, RMHF Exec. Director
- 5/7/18 Map to be prepared showing improvement area and existing conditions

Why

The Ronald McDonald House serves the needs of families with sick kids by providing comfortable lodging while being located conveniently to the medical facilities their child is receiving care from. With that, we want to provide safe surroundings around the Ronald McDonald House and this includes lighting, safe walking routes and wayfinding methods to nearby locations.

How

Identify problem issues around the RMHF block

Review project details with RMHF executive director

Develop timeline of project details once final scope is agreed upon

With project approval begin aligning next steps of improvement planning and implementation with stakeholders for RMHF block
