- Traffic back-ups getting you down? Travel green. Reduce traffic congestion and save fuel by using a commute alternative. Visit www.mycommute.org for details.
- For details on projects throughout Spokane County, visit www.srtc.org.

*Projects highlighted in **RED** have notable changes this week. Construction is tentative and subject to change at any time.*

CONSTRUCTION PROJECTS

9TH AND PINE BOOSTER STATION

- There are no street closures. However, construction vehicles use 9th Avenue to access the off-street construction site for the remainder of the construction.

This project will replace the out-of-service booster station with a modern facility.

This is a \$5.3 million project.

FRANCIS & ASSEMBLY WATER

- Construction will wrap up on Friday, April 24.
- 9 Mile Road has a southbound lane closure between Wind River Drive and Rifle Club Road. The street is closed to pedestrian traffic.

This project will enhance water, sewer, stormwater, and traffic infrastructure in the Northwest Terrace area. Phase One involves installing a new water transmission main from the Low Water Pressure System to the NW Terrace Water Pressure System, improving domestic water reliability and supporting future growth.

This is a \$3.3 million project.

FREYA STREET WATER DISTRIBUTION MAIN REPLACEMENT PROJECT

- Pavement repair has been postponed until May. Crews will be repaving two sections of Freya Street between 13th and 21st Avenues that did not meet compaction standards.

This project replaces approximately 3,050 feet of 8-inch cast iron water main with a 12-inch ductile iron main along Freya Street from 21st Avenue to 13th Avenue. Work also includes roadway repairs, ADA-compliant curb ramps, and coordination with utilities to minimize service disruptions.

This is a \$3.7 million project.

SPOTTED ROAD BOOSTER STATION

- There are no traffic impacts.

Construction of a new water booster station for the Plains Pressure Zone.

This is a \$2 million project.

SPRAGUE & ALKI-BROADWAY - FREYA TO HAVANA GRIND AND OVERLAY

- Havana Street is open with no lane restrictions.
- Sprague Avenue is reduced to one lane in each direction between Havana and Freya Streets.

This project rehabilitates portions of Sprague Avenue and Alki-Broadway Avenue. It also includes a water main replacement, ADA ramp upgrades, and selected stormwater improvements.

This is a \$3 million project.

US 195 MEADOWLANE J-TURN

- US 195 has northbound and southbound lane restrictions between Cheney Spokane Road and Hatch Road.

This project will reconstruct the intersection of US 195 and Meadowlane Road to include a J-turn, along with acceleration and deceleration lanes. These upgrades aim to enhance safety and reduce congestion during peak hours, while also preparing for future growth in the area.

This is a \$2.4 million project.

WELLESLEY - FREYA TO HAVANA RECONSTRUCTION PROJECT

- Wellesley Avenue is closed between Havana and Freya Streets.

Full reconstruction of Wellesley from Freya to Havana (35-ft., 3-lanes), including stormwater improvements, street trees, and replacing the water distribution main, and a shared use path on the south side of the street.

This is a \$4.5 million project.
