

Helping Trees Thrive

A Workshop for Tree, Turf and Landscape Care Providers

Transplanting Large Trees Bareroot Economically

With speaker, Jim Flott

Thursday April 16, 2015 9:00am-4:00pm

In Post Falls, Idaho

Cost = \$50

Space is limited to 30 registrants & pre-registration is required.

(includes a light breakfast and a sack lunch)

Contact 208-769-2266 for a registration form or email kkosanke@cdaid.org

Workshop information: Bare root transplanting has been used since humans started walking the earth. It is the root of the nursery industry. The modern demand for immediate effect in the landscape or retention of existing landscape trees can be met by successful bare root transplanting of large DBH trees economically. Transplanting large diameter trees bare root is not new but the mechanics of harvesting and transportation are new. This hands-on workshop/presentation will demonstrate the process of moving large diameter trees bare root and provide you with avenues of revenue for your business. This workshop will be held outside rain or shine, so please dress accordingly. Since this is a hands-on workshop, personal protective equipment will be required onsite including: hardhat, safety glasses, hearing protection, gloves and boots.
